    21. Chapter 821 - 821 – The Origin Of The Biological Warship

Volume 9

Chapter 801 - 801 – Yuanen Huihui’S Worries

801 – Yuanen Huihui’s Worries

Eighteen years old was a beautiful season for many people, but for some, it was a strange time.

For example, Yuanen Huihui. He was almost eighteen years old, and at eighteen years old, he had to face an important choice. Should he become a man or a woman?

This question had actually troubled him for a few years.

When he started to carry out the Sky Fighter missions in his fourth year, his cultivation had reached the peak of six-ring. Now, he was still at the peak of six-ring. So why hadn’t he improved at all? It wasn’t that he couldn’t improve, but he didn’t dare to.

Once he broke through to seven-ring, he would have to face this choice. The breakthrough in his cultivation and the formation of his Martial Soul Avatar had even more influence on his body than reaching eighteen years old. He had to make a choice without any delay.

Therefore, he had been painstakingly suppressing his cultivation.

Standing in front of the window of the dormitory’s meditation room and looking at the dark green, Yuanen Huihui felt a little lost. As a result, he wasn’t in the mood to cultivate during this period of time.

Everyone’s cultivation had been increasing for more than a year. Everyone in the team was working hard with all their might. It wasn’t just the seven of them led by Lan Xuanyu, but the entire 33 Sky Wings were the same.

After completing more than half of the Sky Fighter missions, Lan Xuanyu chose the safest way to ensure that the entire class

completed the mission. He didn't care about the Sky Fighter points, and chose level 2 missions that were easy to complete. It took an entire half a year to complete six level 2 missions without any mistakes. A month before the deadline set by the academy, he finally led the entire class to complete the mission. They also became the first class in history to perfectly pass the Sky Fighter missions. They were worthy of being called the experimental class.

One had to know that they needed to achieve 24 difficulty points for the Sky Fighter missions, not the standard 18.

There was another advantage to choosing level 2 missions. In a relaxed state, Lan Xuanyu didn't participate in the missions most of the time. Instead, he was forging and working hard to improve his forging skills so that everyone could start forging the Two-Word Battle Armor they needed.

It was already the second half of their sixth year and everyone was about to graduate. The entire class was only missing the last few sets of Two-Word Battle Armor. It could be said that Lan Xuanyu had put in a lot of effort for the sake of his classmates.

It was precisely because of this that the 33 Sky Wings became even more united. Furthermore, everyone was holding their breaths in their hearts.

They would never forget what Lan Xuanyu had said to them. Lan Xuanyu had told them that he was going to bring everyone with him. They might not all necessarily be able to enter the Inner Court, but they definitely had a chance to enter to do it.

As they grew older, each member of the 33 Sky Wings had their own ideas, but without exception, all of them were striving. Many people had never thought that they would have the opportunity to enter the Inner Court in the future. Some people even thought that it would be difficult for them to graduate from the Outer Court. However, in the past few years, under the leadership of Lan Xuanyu, their strength had continuously increased, and their environment had never been better. Such an opportunity had already surpassed any other grade. What reason was there not to work hard?

Therefore, everyone worked very hard.

Other than the class leader, Lan Xuanyu, everyone else in the class was at least a six-ring Soul Emperor. There were also more than eight seven-ring Soul Sages. Among all the graduating classes in the past, this could be considered to be second to none. There was also an eight-ring Soul Douluo, and it was the impressive and strongest, Tang Yuge.

As for Yuanen Huihui, if he was willing, perhaps he also had the opportunity to touch the eight- ring Soul Emperor. After all, when he had just entered the Shrek Academy, he was already a five-ring Soul King.

However, he didn't. He was still at the peak of six-ring. In the past two years, his soul power had almost not improved at all. He had always suppressed it within this range.

"What should I do? How should I choose? "Yuanen Huihui really had a headache.

Qian Lei had once told him that the choice depended on his sexual orientation. If he liked girls, he would be a man. If he liked boys, he would be a girl.

However, in the past few years, he was completing missions, cultivating, and improving himself.

Yuanen Huihui had always been at a loss when it came to the matters between men and women. He had never had any goals, so he naturally didn't know what he liked. Thus, his problem had never been solved, and he naturally didn't dare to choose to break through.

They were about to graduate. What they were about to face was not the graduation season of ordinary academies, but the extremely important matter of entering Shrek Academy's Inner Court. Furthermore, they were the future competitors for the Shrek Seven Monsters title.

Yuanen Huihui had reached the point where he couldn't continue

suppressing his cultivation. If he continued to suppress it, his strength would undoubtedly not be able to keep up with the pace of his companions. It would be too big of an impact.

He had to choose to break through. At least, he had to choose before graduation. In other words, it was time to choose his gender for the rest of his life.

At this moment, the soul communicator on his wrist suddenly vibrated. Yuanen Huihui, who was deep in thought, jumped in fright.

When he looked down, he saw a familiar number. However, he revealed a look of astonishment.

Subconsciously, he opened the communicator on his wrist and pressed the answer button.

“What’s the matter?” he asked doubtfully.

A familiar female voice came from the other side. She said calmly, “Nothing. I just wanted to ask if you’ve thought it through.”

Yuanen Huihui smiled bitterly. “Not yet! I don’t know what to choose. ”

“Open the door. I want to talk to you,” the voice said calmly.

“Ah? You’re here? ” Yuanen Huihui jumped in fright. However, he didn’t know why, but when he heard that the other party had arrived, he felt relieved. He even felt as if he could rely on her.

He hurriedly ran downstairs and opened the door.

A young girl in a yellow dress was standing outside the door.

The young girl’s long hair was draped over her back. Her white knee-length dress didn’t have any complicated patterns. It was simple but refreshing. Her face was beautiful, and she had a somewhat otherworldly temperament. Her expression was peaceful, just like the girl next door.

Yuanen Huihui couldn't help but be slightly swayed by her appearance. After entering the Shrek Academy, his height hadn't changed much over the years. Therefore, he had to look up to see the young girl's face.

Although they met almost every day, Yuanen Huihui still felt a little unrealistic when he saw her like this today.

Was this really an eight-ring Soul Douluo, the one who was definitely the strongest person in the entire Outer Court?

Yes, the person who came was none other than his half-sister, Tang Yuge.

"You won't let me in?" Tang Yuge asked.

"Oh, oh. Come in." Yuanen Huihui hurriedly opened the door and invited her in.

When they first entered the academy, their relationship wasn't very good. There were always problems. However, as time passed, they had been partners for so long that the problems from the past no longer existed. At some critical moments, Yuanen Huihui called her 'big sis' more than once. However, he definitely wouldn't call her that normally.

After closing the door, Yuanen Huihui followed Tang Yuge to the living room of the dormitory. Tang Yuge didn't stand on ceremony as she pulled a chair and sat down.

"You don't have time to hesitate anymore. You have to make a decision as soon as possible. Do you really not have any thoughts at all? " Tang Yuge went straight to the point.

Yuanen Huihui shook his head and smiled bitterly. "I really don't have any thoughts. Sometimes, I even deliberately avoided this question. I also know that it's time to make a choice. However, the more I'm like this, the more I'm afraid of making a choice. Do you have any suggestions for me? "

Chapter 802 - 802 – I Will Take This Responsibility

802 – I Will Take This Responsibility

Tang Yuge frowned, and said, “For you, this is a big event that affects your life, and no one is qualified to help you make this decision. I don’t have this qualification, even your parents don’t. But you are getting closer and closer to the ceremony. Your cultivation can already break through to seven-ring. You can’t continue to hesitate anymore, we’re not far from graduation. You also need to get familiar with your ability after breaking through to seven-ring. When you choose a gender, there will be great changes and it will take time to adapt. I think you will have to make a decision within a maximum of half a month.”

“Don’t put pressure on me, okay?” Yuanen Huihui said suddenly, anxiously, “I know that too! I have to make a decision. But it’s really hard! This is a gender issue that will affect me for the rest of my life.”

Tang Yuge looked at him silently and said, “What are you hesitating about? Do you like boys and girls all the same?”

Yuanen Huihui shook his head, “No. I don’t dare to like anyone at all, because I don’t know how I will choose in the future. How would I dare?”

Tang Yuge sighed, “But you must make a choice after all.”

Yuanen Huihui’s eyes became reddish and his mood fluctuated. “I asked my father and mother. They are not willing to make this choice for me. You are all the same, no one is willing to take this responsibility, and you are all afraid of me blaming you in the future? Would I do that? I just need someone to help me and become my backbone! I am really at a loss, and it ’s painful for me! It’s like what you said when you turned 18 years old. You don’t want to let dad come, but you hid and cried alone on the shore of

Poseidon Lake.”

Tang Yuge’s body shook slightly, and she clenched her fist subconsciously, as if her whole person was tightened in an instant.

And Yuanen Huihui, who spoke like a vent, stopped immediately, and he realized that he had said something wrong, and looked up at Tang Yuge.

Tang Yuge’s clenched fist gradually let go, then slowly stood up.

Yuanen Huihui took a step back subconsciously, shrinking his neck. Now he was far from Tang Yuge’s opponent.

“What are you afraid of?” Tang Yuge’s voice was a little groaned. “You are my brother, after all, would I eat you or what?”

Yuanen Huihui froze for a moment. There didn’t seem to be any anger in Tang Yuge’s voice.

Tang Yuge’s gaze became peaceful again, and there was a touch of tenderness. She walked to Yuanen Huihui and touched his head gently. “In these years, in fact, the hatred in my heart has gradually disappeared, and I can feel that he has always wanted to make up for me. During my coming-of-age ceremony, he was not allowed to come, not because I still hate him so much, but I didn’t want to make my mother sad. I won’t get angry at you again because of him. After all, we are also siblings who share blood thicker than water. You are right, at this time, someone needs to help you and become your backbone. Since they are not willing to take this responsibility, I’m your sister, I’ll take it.”

Yuanen Huihui’s eye circles became red instantly and his voice shook a little, and he called subconsciously: “Big sis …” Then he flew into her arms.

Tang Yuge blushed slightly and wanted to push away Yuanen Huihui who was buried in her chest, but after all, she didn’t bear to do so. Raising her hand, she finally hugged his shoulders.

“You can’t be bothered by this anymore. With your talent, you should have broken through to eight-ring during your sixth-year.

Make a decision. Dad already has me as a daughter, so what about a daughter and a son? Together we form the “Good” character. Just become a boy, what do you think?” Tang Yuge said seriously.

Yuanen Huihui looked up, looked at her with tears on his face, and looked at the encouragement in Tang Yuge’s eyes. He nodded hard and said seriously: “Okay, then I will become a boy. Thank you big sis. No matter what the future, I will never regret it. Follow me.”

As he said, Yuanen Huihui took Tang Yuge’s hand and quickly ran upstairs to his meditation room.

Watching him close the door, Tang Yuge couldn’t help wondering: “Do you want to break through now?”

Yuanen Huihui’s eyes were full of glowing radiance, “There is no more urge to make a breakthrough than this moment. Big sis, thank you. Thank you for giving me confidence and support. No matter what our parents do, I will definitely treat you well and protect you.”

Tang Yuge laughed. Perhaps, before today, although they had recognized each other long ago, there was still a layer of separation in their hearts. But now, she couldn’t feel it anymore, and that layer had finally disappeared completely.

Yuan Huihui nodded his head to Tang Yuge, and then sat cross-legged in the middle of the meditation room.

Tang Yuge opened her mouth, trying to remind him of something, but she stopped midway. She had helped Yuanen Huihui as the backbone to make a decision. Not everything can be helped by her. Yuanen Huihui needed to grow on his own.

Taking a deep aura, Tang Yuge’s eyes became brighter, her spiritual power was released, and she felt the change in Yuanen Huihui’s aura. If anything were to happen, she would help out immediately.

Yuanen Huihui didn’t immediately try to break through. For him, after suppressing his cultivation for so long, breaking through to seven-ring was only a matter of course.

His mood gradually stabilized, his soul power steadily operated, and his whole person soon entered the state of trance.

With a faint serene smile on his face, there didn't seem to be anyone with more peace of mind than him at this moment. With Tang Yuge by his side, his heart was full of a sense of security, which is why, this time he entered meditation faster than ever.

Gradually, the circulation speed of Yuanen Huihui's soul power gradually increased, and his aura began to change. With his body as the center, fluctuations of soul power gradually gathered into a vortex.

Tang Yuge's eyes were narrowed and she stared at him quietly. She could feel that Yuanen Huihui's aura fluctuation was exponentially increasing.

Without hesitation and repression, he was releasing his long suppressed power bit by bit. This required a very careful process otherwise there was a danger of losing control.

But at this moment, the feeling that Yuanen Huihui brought her was very stable, without any recklessness. His whole person had become extremely calm. The speed of releasing his suppressed soul power was very gentle and stable. There was a sense of unity between heaven and man.

The life energy sucked into the room through the meditation room was also quickly absorbed by him. Yuanen Huihui's aura continued to rise steadily.

Suddenly, the whole room trembled slightly. Yuanen Huihui also opened his eyes at this moment.

In front of him, a halo flickered, and there were actually two silhouettes. Those two silhouettes were also him, one was a handsome and heroic man, while the other was a beautiful and delicate woman.

The two shone and intersected, and the Yuanen Huihui's body was constantly changing.

He didn’t hesitate, raising his hand instantly and pointed at the male side. Suddenly, the male silhouette suddenly enlarged, while the female one turned into a bubble and disappeared into thin air.

Did he make his choice? Tang Yuge was tense unconsciously at this moment, staring at Yuanen Huihui.

The male silhouette flew in front of Yuanen Huihui and quietly merged into his body.

The next moment, Yuan Huihui’s own aura erupted like a blowout. A crystal clear green light soared into the sky, driving him, who was originally sitting cross-legs on the ground, to float from his original sitting position to standing.

TL note :

子 : son

女 : daughter

女+子 = 好 : good

Chapter 803 - 803 – Transformation ! Yuanen Huihui

803 – Transformation ! Yuanen Huihui

The green light was getting stronger and stronger, so much so Yuanen Huihui was completely enveloped. Tang Yuge could no longer see his figure, but she could clearly feel that Yuanen Huihui's body was changing, even though there was a crackling sound of bones.

Breakthrough, seven-ring! At this moment, Yuanen Huihui's aura was rising madly.

A cloud of white light emerged, suspended above his head, and the Phantom Elven Dragon unfolded its rainbow colored wings, and the white halo closed inward. In the true sense, it began to completely integrate with the Yuanen Huihui.

In the green light, a golden halo gradually began to ripple. A peaceful voice came out of the green halo at this moment.

"Big sister, do you know why I had such a hard time choosing, and why did my father and mother refuse to give me advice?"

"Because I have the veins of Titan flowing, and also the veins of the Elven royal family. I have been approved by an Elven Dragon. If I chose to be a female, then I will be the next Elven Queen in the future. This is what my mother hopes, and what she expects. However, my dad is more willing to let me be a man, as you said, he already has you as his daughter, and he wants me to be his son. And more importantly, he didn't want me to leave him and become the Elven Queen. "

"I know that they have argued several times about this matter. So even if it was not for my own sake, I am really embarrassed. Thank

you, besides them, you are also my closest relative. You didn't know this, but you made a choice for me, thank you. I am willing to be a boy. I want to be a strong brother who can protect my big sister. I love you, big sister. "

Tang Yuge listened to all this in surprise. She really didn't know that there were so many obstacles in Yuanen Huihui's choice. However, she did not regret it, she did not regret it at all. If they had continued to delay, it would have caused real damage to Yuanen Huihui.

Making decisions in a timely manner was the most responsible way to him. He needed more strength to meet the upcoming graduation season.

If she knew these statements, maybe she would have even more firmly hoped that Yuanen Huihui would become a boy, because she was also unwilling for her brother to live on the Elven Planet !

The green light became stronger and stronger, and the Phantom Elven Dragon slowly landed. We could see the pair of rainbow colored wings spreading and folding behind Yuanen Huihui. This was the sign that the Phantom Elven Dragon completely fused with him, akin to a Spirit Soul.

These wings had become the wings of Yuanen Huihui, which could fuse with his Two-Word Battle Armor.

The green light and shadow gradually converged inward, but the aura released by Yuanen Huihui became more and more intense. That was by no means just the breakthrough of a seven-ring Soul Sage.

The power of suppression was constantly breaking up, and the final fusion with the Phantom Elven Dragon was also promoting this, allowing his aura to continue to rise.

Suddenly, the green light circled around quickly, like a vortex, moving violently.

Tang Yuge was startled, and wanted to subconsciously remind him.

But here, she saw that a pair of slender arms stretched out from the green rays, and each of those arms drew a graceful arc and closed inward. Those green rays suddenly gathered to the center.

With the green light closing to the center, Yuanen Huihui's significantly enlarged feet first appeared, then the slender and strong calves, and gradually, his head was exposed.

Originally, he needed to look up to Tang Yuge, but at this time, he seemed to be over one meter eighty-five, and his long hair turned into a dark green with a faint halo. Increasingly clear and translucent, turning into a faint blue-blue color. There was a small gap in the forehead, and it seems to be his third eye that could be opened at any time.

The original look of Yuanen Huihui was very good, but at this time he really grew up, he looked even more handsome, a different kind from Lan Xuanyu.

Lan Xuanyu's handsomeness was upright and beautiful, giving an irresistible appeal.

Yuanen Huihui's good-looking was the kind of handsome gentleness, as if he was the embodiment of nature, warming everything around.

Although Tang Yuge originally knew that the Yuanen Huihui's body would have changed after breaking through to seven-ring, and would not maintain the image of a teenager for many years, she did not expect that his change would be so great. To this extent.

He didn't look like his previous looks ! One could only vaguely see traces of the original Huihui, but now he was completely a handsome young man full of attractiveness.

Gradually, the green light below had converged to the position of the Yuanen Huihui's knee, and the light above to the shoulder.

The clothing on Yuanen Huihui has long since disappeared, so that all she saw was his bare body.

Tang Yuge blushed slightly, and subconsciously took two steps

back. She wanted to go out, but she was worried that his breakthrough would encounter problems. Because she knew what Yuanen Huihui was doing now, he clearly wanted to consolidate his Soul Core!

Once the core was successfully formed, it meant that Yuanen Huihui would step into the ranks of true high-ranking powerhouses. Those with and without a soul core, were completely different. A soul core could greatly improve the endurance of a soul master, and it was also the most important step to open the door to the nine-ring level.

Yuanen Huihui watched Tang Yuge's eyes move. From his eyes, Tang Yuge saw self-confidence.

The green halo was spinning faster and faster, rushing towards Yuanen Huihui's chest, and his long, strong thighs were gradually exposed.

Tang Yuge finally didn't dare to look at him again. She closed her eyes with a flushed face, but she didn't leave after all.

She just felt the changes in Yuanen Huihui silently through her spiritual power.

At this time, Yuanen Huihui's chest was continuously expanding with a green light spot, and those green haloes that were incorporated into his body quickly condensed, forming a vortex in his chest. In the center of the vortex, a crystal clear green crystal was slowly formed, and the surface was also surrounded by a small illusion of an Elven Dragon.

With the help of the Phantom Elven Dragon, the formation of his soul core did not take much effort. He has accumulated for a long time, he could have easily made a breakthrough more than a year ago.

The effect of breaking through after a suppression was surprisingly good. He and the Phantom Elven Dragon blended together perfectly. With the aura of the Phantom Elven Dragon, he continued to climb. When his soul core took shape, his soul power had directly

reached the peak of seven-ring. Just like when he broke through to six-ring.

His soul core was shaped, and all the green rays were ravenously inhaled by Yuanen Huihui .

At this time, he also noticed the changes in his body, subconsciously looking at his hands that became significantly larger, and then looked at his body. He stayed for a while, and then used his hands to protect his lower body.

“Don’t open your eyes, big sister, don’t open your eyes! Wait for me, I’ll change my clothes.” Opening the door of the meditation room quickly, the wind rushed out.

Tang Yuge was relieved after feeling that he rushed out of the meditation room, but in her mind, Yuanen Huihui’s changed appearance, as well as the previously exposed shoulders and long legs, kept flashing in her mind.

This was the first time in her life that she had seen a boy’s body, and the visual impact was too strong.

He is my brother, he is my brother, Tang Yuge kept meditating in his heart. The mood had calmed down.

Just then, a scream came from outside.

Chapter 804 - 804 – My Clothes Are Too Small

804 – My Clothes Are Too Small

“Ah! ah! ah!”

“What’s wrong?” Tang Yuge instinctively rushed out. Then she saw a strange scene.

Yuanen Huihui was dressing himself, but his pants were only halfway up and he couldn’t pull them up. He was wearing shorts with open stitches on both sides, revealing a body with graceful muscles, and his long, dark green hair was a bit messy on his body.

Tang Yuge suddenly felt like she might get pinkeye. Her gaze only stayed for a moment before she quickly turned around.

“Why aren’t you wearing your clothes?”

Yuanen Huihui smiled bitterly, “Big sis, the clothes are too small, I can’t fit in them! Can you go borrow a set of clothes from big brother Xuanyu for me? My body is probably similar to his now.”

It was only then that Tang Yuge realized why Yuanen Huihui had been screaming. Yes! His body had changed so much that he couldn’t fit into his old clothes anymore!

“Okay, wait here.” She blushed and ran out like a bird.

Watching her panicked figure running away, Yuanen Huihui didn’t bother to put on his pants anymore. He threw them aside and muttered to himself, “Big sis looks so cute today! Hahaha, is she shy? So she can be shy too! Haha.”

Tang Yuge naturally didn’t hear Yuanen Huihui’s sneering and ridiculing laughter. She rushed out of Yuanen Huihui’s dormitory, and her mood relaxed slightly, but the previous scene kept flashing

in her mind.

His change was really too big, from a boy to a man in an instant. And he really looked pretty good. Hmm, it's better to be a man. If he turned into a girl, wouldn't it become a disaster for the country and the people?

She raised her hand and dialed the number of her soul communicator on her wrist.

After a few rings, it was connected.

"What's wrong, Yuge?" A gentle voice came from the other end.

"Xuanyu, can you lend a set of your clothes? Huihui broke through and suddenly had a big change in body shape. He can't fit in his own clothes anymore. I want to borrow a set of your clothes for him to wear first."

Upon hearing this, Lan Xuanyu was suddenly startled and quickly put down the forging hammer in his hand on the forging table in front of him.

"He broke through? Huihui made a choice?" Lan Xuanyu naturally knew that Yuanen Huihui had been feeling down recently, mainly because he needed to make a choice, but he couldn't make a decision in his stead.

"Yeah, he chose. He chose to be a man," Tang Yuge said.

Lan Xuanyu breathed a sigh of relief and said, "That's good. Where is he? In the dormitory? Okay, I'll bring the clothes to him. You wait for me in his dormitory."

After hanging up the communication, Lan Xuanyu left the forging workshop and ran straight to Yuanen Huihui's dormitory.

He didn't need to go back to his own dormitory to get clothes because he had them in his Ring of Fate.

He was also a bit eager to see what Yuanen Huihui looked like after breaking through and making a choice.

It didn't take long for him to arrive at the door of Yuanen Huihui's dormitory, where he saw Tang Yuge in a yellow dress waiting for him. "This way," Tang Yuge waved to him.

"Why didn't you go in and wait for me?" Lan Xuanyu asked in confusion.

"He's not wearing any clothes, is he?" Tang Yuge blushed.

Looking at her, Lan Xuanyu couldn't help but stare for a moment. He had never seen Tang Yuge blush before, Yuanen Huihui wasn't the only one surprised.

"Yuge, your face is so red. Haha," Lan Xuanyu couldn't help but laugh.

Tang Yuge gave him a disdainful look and said, "You go in first and call me when he's dressed."

"Okay." Lan Xuanyu stopped teasing and hurried into Yuanen Huihui's dormitory.

When he saw Yuanen Huihui, he was taken aback and looked him up and down.

"Big brother Xuanyu," Yuanen Huihui, who was now wearing a large bath towel around his waist, looked at him with a blush on his face.

"Don't look at me like that, I feel a little weak."

"Why weak? You look so handsome! I'm jealous. You should have made the choice long ago. But, now I'm thinking, if you're so handsome as a boy, what would you look like as a girl? Do you regret it?" Lan Xuanyu joked.

Yuanen Huihui shook his head. "No regrets. It's good to be a boy. What's the point of being a girl? Unless you don't want to be with sister Xiuxiu anymore, I can consider it, hehe."

"If you have the guts, say it in front of her," Lan Xuanyu said unkindly.

Everyone had been too busy for the past two years, especially him. He had been forging day and night with his partners, and they had been together less and less. But everyone knew about his relationship with Bai Xiuxiu.

Lan Xuanyu threw a set of his own school uniform to Yuanen Huihui. “Change into this. Your sister is waiting outside.”

Yuanen Huihui hurriedly changed into Lan Xuanyu’s clothes. He was only slightly shorter than Lan Xuanyu now, but he was still leaner. However, the clothes fit him better than his own.

“Yuge, come in. He’s ready,” Lan Xuanyu shouted outside the door.

Tang Yuge then walked in and saw Lan Xuanyu and Yuanen Huihui standing side by side. She was stunned for a moment.

Lan Xuanyu had black hair, bright eyes, and a handsome appearance that made girls jealous. He was more handsome than when he was a teenager but still had a sunny and masculine charm.

Standing beside him was Yuanen Huihui with long dark green hair, whose gentle temperament and fair complexion, combined with beautiful aquamarine eyes, had a mysterious charm. His slightly pointed ears were undoubtedly inherited from his elven bloodline.

The two of them standing side by side would certainly make people feel pleased to look at them!

“I’ll go and have some new clothes made. Sis, do you think my physique will not change anymore?” Yuanen Huihui didn’t notice the surprise in Tang Yuge’s eyes and looked at his body subconsciously.

Tang Yuge said, “It shouldn’t change anymore. How’s your soul core condensed?”

Yuanen Huihui replied, “It’s quite stable.”

Lan Xuanyu was surprised and asked, “Has your soul core formed?”

Yuanen Huihui nodded, “After breaking through to seven-ring, it

formed together.”

Lan Xuanyu’s mouth twitched, “Can I say I’m jealous?”

Yuanen Huihui smiled and said, “Big brother Xuanyu, you’re different from us. Haven’t you already reached the peak of the four-ring? When will you break through to the five-ring?”

Lan Xuanyu smiled wryly, “I’ll wait until I finish forging the last two sets of Two-Word Battle Armor that require Fuse Forging. It’s almost there. I estimate it will take another half a month to complete.”

Tang Yuge asked, “How about your own Two-Word Battle Armor?”

Lan Xuanyu replied, “Xiuxiu has almost finished making it for me. It seems that only the final helmet is needed to complete it.”

Tang Yuge sighed lightly, “You have sacrificed too much for everyone these past few years. After you’re done with forging, you really need to break through quickly. We are all looking forward to seeing your strength at the five-ring level.”

Since Lan Xuanyu defeated the seven-ring Soul Saint with his lower cultivation base, everyone understood that his strength was no longer comparable to that of ordinary soul masters.

However, it had been two years, and Lan Xuanyu still had four rings, which was too slow to progress. With the upcoming graduation exam, especially to enter the Inner Court, as the team leader, he was indeed in a bit of a dilemma if he only had four rings.

However, he was also afraid to break through prematurely. After all, his breakthrough was different from others and required a tremendous amount of life energy. At the same time, his body also had to withstand the collision of the two bloodlines during the breakthrough, which could be dangerous if not handled properly.

Chapter 805 - 805 – His Classmates' Present

805 – His Classmates' Present

TL : GoldenLung

Over the past two years, he had been able to quickly improve to the peak of four-ring thanks to the Ice Fire Yin Yang Well and the Treasure Hunting Beast. He had already been at the peak of four-ring for four months. He didn't know if he had accumulated enough, but he was certain that he needed to break through with the help of the Ice Fire Yin Yang Well. He was prepared and was planning to go on a journey after completing the metal forging of the Two-Word Battle Armor needed for everyone.

By now, his forging level had reached level six, and he was proficient in Spirit Forging. Therefore, his forging speed had been continuously increasing. However, he knew that he would likely remain at this level until graduation. To reach a higher level, he would have to wait until after entering the Inner Court.

"Huihui's breakthrough is great news. Among us, Yuge is at the eight-ring level, Huihui and Mengqin have soul cores at the seven-ring level, Qianlei is at the peak of the six-ring level, and Xiuxiu has also reached seven-ring. It's just me lagging behind, but I will definitely break through this time."

In fact, Lan Xuanyu knew that if he had more time, he should have waited and accumulated more before attempting the breakthrough. When he broke through to four-ring, he had suppressed his cultivation for a long time. Even then, he still encountered some problems during the breakthrough.

This breakthrough would certainly be more difficult than the last one, and if he followed the situation of his soul ring advancement, all of his five soul rings might become one hundred-thousand-year ones after this breakthrough. If that happened, his cultivation

would improve significantly.

Nana had also advised him to wait for more than a year before attempting the breakthrough. However, could he wait? He couldn't wait any longer. Entering the Inner Court was his dream, and he hoped to lead more of his companions to enter as well. Graduation was approaching this year, and waiting for another year was unrealistic.

Without a cultivation at the five-ring level, how could he qualify to enter the Inner Court? How could he lead his companions to compete as the new generation of Seven Shrek Monsters?

Therefore, Lan Xuanyu had already made up his mind and prepared extensively. If he didn't have enough accumulated cultivation, he would make up for it with resources.

Yuanen Huihui looked at Lan Xuanyu and said, "Big brother Xuanyu, you must ensure safety before making a breakthrough! In fact, we are all here for you. You have always been working hard for the whole class, and now it's time for us to help you. Oh, by the way, this is for you." As he spoke, Yuanen Huihui took out a box and handed it to Lan Xuanyu.

Lan Xuanyu recognized the box, but he still instinctively opened it. Inside, there was a black emblem lying quietly in it.

"A black-level emblem? Where did you get it?" Lan Xuanyu asked in surprise.

The black-level emblem of Shrek Academy was different from the previous levels. It couldn't be obtained easily. It required completing extremely outstanding tasks and accumulating enough resources to have a chance of obtaining it.

At their level in the Outer Court, it was almost impossible to obtain a black-level emblem.

Yuanen Huihui said, "I have a cousin who is an upperclassman in the Inner Court. I exchanged my accumulated purple-level emblems with him for this emblem. You need a lot of resources to make a

breakthrough, and this is my little gift to you.”

“No, this is too precious. I can’t take it,” Lan Xuanyu firmly refused.

Yuanen Huihui’s eyes turned red. “Big brother Xuanyu, when you helped us, you never asked for anything in return! You said to owe you first, but over these years, you have never asked us to pay it back. Moreover, without you, we wouldn’t have gained so much over the years. Only when you make a breakthrough can you lead us further and more of our classmates can enter the Inner Court. You must accept it. This is my little gift.”

Tang Yuge said, “Take it, Xuanyu. You are our class leader and our spiritual leader. Now, except for you, everyone in the class has a cultivation level of six rings or above. Do you think it’s easy for us to see you still at the four-ring level? Not only Huihui had this idea, we all did. We have already decided to give you a gift when you are about to make a breakthrough to the five-ring. We were originally going to wait until that time to give it to you, but considering that you still need to prepare, we’re giving it to you now. Huihui’s gift is too precious, so he gave it to you separately. The gifts from everyone else are with me.”

As she spoke, Tang Yuge opened her soul storage device, and Lan Xuanyu was stunned to see a large pile of purple-level emblems pouring out.

They were all purple-level emblems, and at first glance, there were at least over a hundred, and even more.

For the Outer Court of Shrek Academy, this was definitely an incredible wealth!

“What are you doing? Everyone is about to graduate and needs resources. Why are you giving me things now?” Lan Xuanyu’s voice trembled slightly.

Tang Yuge’s voice was deep and firm: “Everyone has already obtained what they need for their cultivation, so you don’t need to worry. In fact, these emblems are far from enough to repay the contribution you have made to everyone over the years. They are

not even enough to cover the cost of forging your Two-Word Battle Armor. However, this is what everyone can offer for now, and there will be more in the future. When we have more, we will give them to you. Xuanyu, the 33 Sky Wings are not made of you only, and you cannot lead everyone to the peak alone. The 33 Sky Wings belong to all of us, and you must allow us to contribute as well."

Listening to Tang Yuge's words, Lan Xuanyu fell silent and didn't speak for a long time.

Gradually, he smiled and silently put all the emblems in front of him into his Ring of Fate.

"Okay, I accept everyone's kindness, but please don't give me anything else before I enter the Inner Court. In fact, I am more wealthy than you think. After all, my forging skills are quite profitable."

After saying this, he looked at Yuanen Huihui, "Huihui, do you want to celebrate your breakthrough to Soul Saint ?"

Yuanen Huihui was a little embarrassed and said, "No, I want to adapt to my current state first."

Lan Xuanyu laughed, "You should adapt, you are not the same as before, don't cry as easily as before now, brother."

Yuanen Huihui blushed and said, "Big brother Xuanyu!"

Lan Xuanyu laughed and said, "Okay, the clothes have arrived. My task is done, you guys chat for a while, and I'll go back to forging. I need to finish the last two sets and prepare for a journey to Senluo Planet."

Lan Xuanyu left first, and Tang Yuge had already regained her composure.

"Is big brother Xuanyu putting too much pressure on himself?" Yuanen Huihui asked.

Tang Yuge shook her head and said, "No, he is different from us. He is already recognized as the genius of this generation in the

academy, and he is also the future heir of the School of Life. The responsibility he has to bear is naturally much greater than ours. Although I don't know what kind of Martial Soul he has, it is almost certain that if he can break through step by step in the future, he will be stronger than we can imagine."

"If our goal is to break through to the God level, then his goal may be the Super God level of the Eleventh Level. If he can break through to the five-ring this time, we should be able to see some clues. Each of his breakthroughs is a true transformation."

Yuanen Huihui nodded and said, "I also look forward to seeing big brother Xuanyu break through. He will lead us further and further."

Yuanen Huihui's breakthrough made Lan Xuanyu feel very happy. On his way back to the forging workshop, he even hummed a song of Mr. Le.

After completing the Sky Fighter missions, his life became even busier. Various forms of cultivation and forging almost occupied all of his time.

Nana still came to give him guidance once a month. However, at the four-ring level, Lan Xuanyu had already mastered his abilities very well. There was hardly any room for significant improvement.

Chapter 806 - 806 – The Provocation Of A Junior Brother

806 – The Provocation of a Junior Brother

1 Comment

Afterward, Lan Xuanyu went to the Ice Fire Yin Yang Well twice, and each time he gained a significant degree of improvement and help. He was able to reach the forty-ninth rank a few months ago, and it was closely related to the gains he had from the Ice Fire Yin Yang Well.

The Chaos Water synthesized by the Treasure Seeking Beast had an incredibly transformative effect on Lan Xuanyu's physical attributes. This was one of the primary reasons he had enough confidence to break through to five-ring.

Next up was the graduation exam, which was about three months away.

The graduation exam for the Outer Court of Shrek Academy was the same as the assessment of the Inner Court. Generally, as long as one's character didn't have a problem and the student had a Two-Word Battle Armor, they could almost certainly graduate from the Outer Court. Reaching the cultivation level of a Soul Emperor wasn't a hard rule. After all, there weren't many who hadn't reached six-ring while still possessing a Two-Word Battle Armor.

The most important aspect of the graduation exam was whether the student could enter the Inner Court. The Inner Court would set a score line to select the graduates from the Outer Court.

Lan Xuanyu didn't need to guess that the graduation exam for their Experimental Class would undoubtedly be more challenging than previous years. This was also one of the reasons why he was so

eager to improve his strength.

He didn't want to just enter the Inner Court himself, but he also hoped to bring as many of his classmates from the 33 Sky Wings as possible into the Inner Court.

Currently, his classmates from the 33 Sky Wings were all at the second rank Sky Fighters and reaching the third rank wasn't too far off. This was mainly because Lan Xuanyu later picked lower-difficulty missions to ensure that they could finish them.

The academy did not inform them of any future plans for the 33 Sky Wings. They only told them that those who didn't enter the Inner Court could join the Tang Sect or choose their own path.

The whole class had discussed this issue in depth. Then, without exception, everyone chose to stay together as a group.

This decision was not only based on emotions but also on interests. The 33 Sky Wings group allowed everyone's cultivation speed to exceed their imagination and had access to resources from both Shrek Academy and Tang Sect. Even if they didn't consider the camaraderie of their classmates, there wasn't a better place than this.

As Lan Xuanyu walked forward, a sudden gust of wind blew towards him, and a figure rushed towards him at lightning speed.

With narrowed eyes, Lan Xuanyu saw clearly that it was a tall student from the Outer Court whom he did not recognize, obviously a lower grade. Instinctively, he made way, preparing to avoid the other party.

However, the student's speed suddenly increased, and he was about to reach Lan Xuanyu in no time.

"Be careful, junior brother." Lan Xuanyu raised his hand in front of him and gently pushed the other party aside just before he was about to collide with him. At the same time, he half-turned his body, causing the Outer Court disciple's direction of advancement to change slightly and dash out to the side, while Lan Xuanyu was

not hit by him.

“Where are you walking ?” The male student’s eyes were bloodshot, and he angrily scolded before he had even steadied himself.

Lan Xuanyu was taken aback. Although the area occupied by Shrek Academy’s Outer Court was quite large, the number of students was less than two hundred, so he rarely ran into students from other grades. In the more than five years since he enrolled, he had never had any conflicts with anyone on campus, and it was clearly the other party who had collided with him first just now. How could he accuse him ?

By this time, the male student had already stabilized his body and still relentlessly rushed towards Lan Xuanyu, grabbing his collar.

Lan Xuanyu furrowed his eyebrows slightly and raised his right hand to block the other party’s palm. He grabbed his hand and said in a deep voice, “Junior brother, we can’t fight inside the academy. Moreover, you collided with me just now.”

“You’re looking for death!” The male student, however, ignored him and, with his eyes bloodshot, was somewhat like Qian Lei when he entered a bloodthirsty state. He released his Martial Soul in anger.

Soul rings rose from under his feet, and in an instant, he had five rings, a five-ring Soul King.

With the release of his Martial Soul, his palm suddenly became soft, boneless, and slippery. It was as if it had slipped out of Lan Xuanyu’s grasp as if it had fallen into a large pair of pliers. In a fit of anger, he suddenly trembled like a wave, then clapped both hands against Lan Xuanyu’s chest.

This sudden change was extremely rapid, and the other party’s second soul ring lit up directly.

Lan Xuanyu’s personality was relatively gentle, and he got along well with everyone, but that didn’t mean he didn’t have a temper. He was the class leader of the Star War Experimental Class and the Head Wing of the 33 Sky Wings. While he might not be the

strongest in the Outer Court, he was definitely the most influential among the students.

Faced with the continuous provocation of the opponent, he couldn't help but become a little angry. Without releasing his Martial Soul, he stepped forward with his right foot and stepped on the ground. In an instant, the male student in front of him felt that the handsome male student in front of him suddenly changed. An indescribable fierceness erupted from his body, as if what he was facing was not a person, but a fierce beast.

As he stepped on the ground, the entire earth couldn't help but tremble, and in the midst of the violent roar, the male student suddenly felt that the surroundings had turned into a golden color, and his body was lifted directly from the ground, unable to move. Eight golden dragons rose from the ground, surrounding the male student, not attacking him, but imprisoning him, and his Martial Soul was directly suppressed back into his body.

This step came from the teaching of Mr Le, and it was the shocking Golden Dragon Shaking the Earth that Lan Xuanyu saw when Mr Le destroyed a battleship in space for the first time in the middle of space. Although he was far from having the same level of cultivation as Mr Le, his bloodline power was much stronger than before, and with the explosive increase in physical fitness, how could this male student in front of him resist the Golden Dragon Shaking the Earth?

Lan Xuanyu reached out his hand, and a golden-striped Blue Silver Grass instantly entangled the opponent's body, wrapping him tightly. The male student felt a suction force coming from the golden-striped Blue Silver Grass, and his whole body suddenly became soft, unable to exert any force.

Lan Xuanyu's golden-striped Blue Silver Grass could enhance the bloodline power of a person, but it could also strip away the bloodline power of others.

"It looks like I have to take you to the disciplinary office, junior brother. You've violated the school rules." Lan Xuanyu smiled again, and the male student opened his mouth to say something,

but the Golden Blue Silver Grass blocked his mouth and suppressed his voice. Lan Xuanyu didn't want to listen to anyone insulting him. What to do with this junior brother was up to the academy.

He lifted the male student up as if he was lifting a straw and headed straight for the disciplinary office. The male student couldn't even struggle, feeling weak all over and trembling. The suppression of bloodline power was too strong.

Just then, seven or eight people came running from the direction the male student had come from earlier. They saw Lan Xuanyu carrying the male student and someone exclaimed, quickly chasing after him.

"Senior, please wait." There were different marks on the school emblem of Shrek Academy for different grades. The male student, in his anger, hadn't noticed, but these seven or eight people who came chasing after him were sober-minded and immediately noticed the mark on Lan Xuanyu's chest emblem that represented the sixth year.

Lan Xuanyu stopped, realizing that the gazes of these people were all fixed on the male student he was holding, and he naturally understood that they knew each other.

"What's up, junior brothers and sisters? Is there something you need?" Lan Xuanyu asked.

The leader was a girl, extremely beautiful, wearing a green Shrek Academy uniform, and she urgently said, "Senior, why did you tie him up? He's our classmate."

Chapter 807 - 807 – Suspicions Towards Dragon Source Planet

807 – Suspicions Towards Dragon Source Planet

TL : GoldenLung

Lan Xuanyu said, “He just bumped into me and took the initiative to attack me. As you all know, private fights are not allowed in the academy. He violated the academy’s rules, so I have to send him to the disciplinary office. “

“Senior, don’t! “The girl exclaimed, and the others immediately stepped forward and surrounded Lan Xuanyu.

Lan Xuanyu was immediately amused. What was wrong with these juniors today? Were they going to rebel?

“What do you mean by this?” Lan Xuanyu asked with a smile.

The girl said softly, “Senior, I’m sorry. My classmate is in a bad mood today, so he accidentally bumped into you. Look, can you be magnanimous and not hold a grudge against him? “

Lan Xuanyu said indifferently, “Looking at your school emblems, you are fourth-year students. In your four years at Shrek Academy, the academy not only taught you knowledge and skills, but also character. You all should know that in Shrek Academy, character has always been the most important thing. Today, he took the initiative to attack me because he was in a bad mood. Then, after he graduates from Shrek Academy and meets with setbacks, will he vent his anger on others? If he doesn’t learn his lesson today, what will happen to him in the future? So, I can’t let him go, this is my responsibility to him. As for how to deal with him, that’s the disciplinary office’s business.”

The girl’s face suddenly became a little ugly, and the others around her looked very angry. They actually had the intention to attack,

but the girl raised her hand to stop them.

She said, “Senior, I’m sorry. I apologize to you on his behalf. Today’s situation is really special. All of us are in a bad mood. You are experienced, so you should know about the Sky Fighter Mission. We just came back from a Sky Fighter Mission. Another classmate from Heaven Dou Planet like him was seriously injured and died, so his mood is especially bad. That classmate died in order to protect him. He especially blamed himself, so he couldn’t control his emotions. Please forgive him. “As she said this, she bowed deeply to Lan Xuanyu.

The smile on Lan Xuanyu’s face disappeared, and he said seriously, “His feelings are pitiful. I understand your feelings, and I also understand his feelings. However, as soul masters, we have abilities that ordinary people don’t have. If our actions are influenced by our emotions, then what if we hurt the innocent? We can’t vent our emotions on strangers just because of what happened to us, right? I still have to go to the teaching office, but I will plead for him. Now, please move aside. “

The girl’s face suddenly turned cold. A boy next to her said angrily, “How can you be so unreasonable? Haven’t you ever seen a classmate get hurt while carrying out a mission?

Lan Xuanyu said indifferently, “No.”

As soon as these words were spoken, the surrounding people were instantly enraged. In their eyes, this was simply Lan Xuanyu provoking them. The four of them couldn’t control their emotions and released their Martial Souls.

“Stop! Don’t do anything!” the girl in the lead shouted.

The others seemed to be more convinced by her and did not take any further action.

The girl bit her lower lip and looked at Lan Xuanyu, then looked at the boy in Lan Xuanyu’s hands.

She stomped her foot and said, “All of you go back and quickly tell

the teacher about this. Ask the teacher to come to the teaching office. Senior, can I go with you to the teaching office? “

Lan Xuanyu said, “Of course you can. Junior brothers and sisters, I advise you to calm down. The Sky Fighter mission is an important test for everyone. Not only does it test one’s strength and adaptability, but it also tests one’s temperament. If you can’t pass this test, then you won’t have the qualifications to graduate from Shrek Academy. “

How could the surrounding fourth years listen to his words? Instead, they looked like they wanted to step forward and make a move. The girl stood in front of Lan Xuanyu and pushed her classmates away one by one. She pulled Lan Xuanyu’s arm and walked away. Lan Xuanyu sighed in his heart. He really sympathized with the experiences of these juniors.

In the process of carrying out the Sky Fighter mission, there weren’t many situations where the students met with mishaps. Generally speaking, the academy would send teachers to secretly protect them during the initial stages of the mission. These fourth years must have encountered some special circumstances that caused some of them to die. The girl pulled Lan Xuanyu to the teaching office. After walking for a few minutes, she realized that she was still pulling Lan Xuanyu. She turned her head to look at Lan Xuanyu. Only now did she notice that this senior was actually so good-looking. She froze for a moment, then hurriedly let go of his arm and said, “Senior, I’m Li Xueying. I haven’t asked who you are.

Lan Xuanyu smiled and said, “Sixth year, Lan Xuanyu. Junior sister, you’re very calm and didn’t let the situation escalate. Not bad.”

This senior who clearly didn’t look much older than her actually spoke like an elder.

Li Xueying couldn’t help but roll her eyes at him. “What if we had assaulted you back then ?”

Lan Xuanyu said without hesitation, “Of course I would have taken you all to the teaching office together. Because they can’t control their emotions, they’re not qualified students and need to be

educated again.”

Li Xueying couldn’t help but complain, “Senior, you’re really impartial. Are you planning to enter the teaching office after graduation?”

Lan Xuanyu laughed and said, “Of course not. I just want to change my school uniform from green to red.”

The red uniform is the exclusive uniform of the Inner Court disciples.

Li Xueying’s heart skipped a beat. Naturally, she understood what Lan Xuanyu meant. One had to know that this was the goal of almost all the Outer Court students of Shrek Academy.

“Can you tell me what happened to you guys? There were actually students who died while carrying out the Sky Fighter mission? “Lan Xuanyu asked, puzzled.

Li Xueying’s eyes instantly turned red when she heard his question.

“We were carrying out a mission to kill a Proto Dragon on the Dragon Source Planet. Everything was fine until we found a cave. At that time, Wu Zhiqian and Wang Xiaoyi entered the cave to investigate. I don’t know why an accident happened.”

Lan Xuanyu was a little surprised when he heard her mention this name. When they carried out the Sky Fighter mission, it was the first one they chose.

The mission was to go to Dragon Source Planet to kill a Proto Dragon.

He didn’t expect this group of juniors to also choose this mission.

“Back then, we started from the Dragon Source Planet mission. At that time, we even encountered a Proto Dragon beast tide. What happened to you guys in the cave? “Lan Xuanyu put down the boy he was carrying.

There was no doubt that this should be either Wu Zhiqian or Wang

Xiaoyi. The golden-patterned Blue Silver Grass was withdrawn. Due to his weak body, the boy squatted on the ground and panted for a while before standing up. At that moment, his eyes were no longer red, but his expression was still ugly.

He muttered, “I don’t know. I don’t know what happened either. After that, my mind went blank. I seemed to have forgotten a lot of things. Wang Xiaoyi was in front, and I was behind. We seemed to have seen something, but we were quickly attacked. “

“A Proto Dragon attacked you guys?” Lan Xuanyu asked.

Wu Zhiqian shook his head and said, “I don’t remember. I don’t know why, but I don’t remember.”

Li Xueying continued, “We waited for them outside. After waiting for more than ten minutes, they were suddenly blasted out. Wang Xiaoyi asked everyone to run. He seemed to have seen something particularly terrifying. His eyes widened, and then he fainted. We realized that it was dangerous there, so we quickly ran back to the base with the two of them. “

Lan Xuanyu frowned slightly and looked at Wu Zhiqian. “You don’t remember anything at all?”

Wu Zhiqian said blankly, “Red, a lot of red. That’s all I remember.”

Lan Xuanyu released his spiritual power and felt the changes in Wu Zhiqian. This Wu Zhiqian seemed to have been mentally stimulated. He didn’t attack him out of his own will.

Chapter 808 - 808 – Tallying Savings

808 – Tallying Savings

He turned to Li Xueying and asked, “Then did you report this matter to the military and then investigate?”

Li Xueying nodded and said, “We did report it and went to investigate. However, we couldn’t find the cave when we went back. “

Lan Xuanyu furrowed his brows. Dragon Source Planet? Those Proto Dragons didn’t have much intelligence, but their attacks were powerful. They had gained a lot from the Dragon Source Planet. Whether it was Dragon Source Ore or Dragon Source Crystals, they could bring a lot of wealth.

Especially Dragon Source Crystals, which were highly valued by the Federation.

“What’s the situation on the Dragon Source Planet? Why did you choose to carry out the mission there? “Lan Xuanyu asked.

Li Xueying said, “The number of Proto Dragons on Dragon Source Planet seems to be increasing. The Sky Fighter mission was relatively easy and rewarding. That’s why almost everyone chose it. We could also take on team missions there. There are a lot of Proto Dragons, so the rewards from killing them are quite good. Even the academy recommended us to complete the rank 3 Sky Fighter missions, so we went. However, we didn’t expect Wang Xiaoyi to meet with misfortune.”

Lan Xuanyu frowned and looked at Wu Zhiqian. “Think about it carefully and see if you can remember the situation in the cave. Perhaps we need your memories to avenge your classmate. “

Wu Zhiqian frowned and thought hard. After a while, he suddenly

hugged his head and groaned in pain.

“Okay, okay, stop thinking about it.” Li Xueying quickly hugged him and comforted him.

Lan Xuanyu sighed and said, “Okay, don’t think too much. Junior sister, take this junior brother to the infirmary. I don’t think he needs to go to the teaching department. His emotions must have been thrown in disarray by this incident, and it must have been a strong stimulus that caused him to lose his memories intermittently. He also has some mental trauma. Let’s go to the infirmary for treatment. We must let him go back to class after he stabilizes his emotions. “

Li Xueying was overjoyed when she heard that she didn’t need to go to the teaching department. She quickly said, “Thank you, thank you, senior.”

Li Xueying left with Wu Zhiqian. Lan Xuanyu looked at their backs thoughtfully and couldn’t help but recall their encounter on the Dragon Source Planet.

All the official records said that Proto Dragons only had combat instincts and didn’t have any intelligence. However, he could still clearly remember the changes in the eyes of that especially huge Proto Dragon. Was that something of an unintelligent creature?

However, Proto Dragons as a whole were silly. They were constantly being born, dying, and then resurrecting and producing new Dragon Source Crystals.

To the Federation, this was simply like a natural energy factory, and was very valued.

If he hadn’t met these juniors today, Lan Xuanyu would have already forgotten about the situation on Dragon Source Planet. After all, they only completed this rank 3 Sky Fighter mission once. But after hearing their story, Lan Xuanyu’s interest was renewed.

A week later.

Lan Xuanyu finally finished forging the rare metals for all his

classmates' Two-Word Battle Armor and handed the last set of rare metals to his classmates. The remaining time should be enough for them to complete their suits of Two-Word Battle Armor.

Completing this mission allowed him to heave a sigh of relief. At the same time, it was time for him to head to Senluo Planet to break through.

Sitting on the floor of the dormitory's meditation room, Lan Xuanyu took out his savings from the Ring of Destiny.

If an Outer Court student saw this scene, they would definitely be shocked beyond words.

They were all Shrek emblems above purple rank. It wasn't that Lan Xuanyu didn't have any yellow emblems, but that he had changed all his yellow emblems to purple ones.

There were three black emblems. One was given to him by his teacher, Tang Zhenhua, one came from Yuanen Huihui, and one was exchanged for by Lan Xuanyu with purple emblems and contribution points. These three black emblems were undoubtedly his most precious wealth.

Other than that, he also had more than 500 purple emblems. Without a doubt, this was definitely a huge fortune.

Back then, the honest youth, Zheng Longjiang, could be considered a little expert at earning money, but compared to Lan Xuanyu, who was a sixth-rank blacksmith, he was still quite a distance away.

This was because Lan Xuanyu had let everyone buy the rare metals for their One-Word Battle Armor and Two-Word Battle Armor on credit.

The value of Spirit Forged metals from Fuse Forging was also very high in Shrek. It was the best metal for making Two-Word Battle Armors. A large portion of the money in front of Lan Xuanyu was obtained from selling forging metals.

Lan Xuanyu counted his wealth. He had three black emblems and 526 purple emblems.

Over the past year, he had eaten a lot of good things. With the Treasure Seeking Beast around, it was enough to help him identify all kinds of Heaven and Earth treasures that were worth consuming, and he wouldn't have indigestion.

Although he didn't have five rings yet, his body was much stronger than when he first had four rings.

Right now, his most precious wealth was still the two drops of god-level life essence. This thing could save lives, and it was also Lan Xuanyu's trump card that he would definitely be able to break through to five-ring.

What he needed to do now was to use this money to exchange for Heaven and Earth treasures that were suitable for him to consume when he broke through.

There were still three months until the graduation exam. Lan Xuanyu applied for a month's leave for this trip to Senluo Planet.

In the sixth year, the academy's teaching was actually very loose. Most of the time, the students relied on themselves to make the final adjustments to face the final graduation exam.

Therefore, after Lan Xuanyu asked for leave, it was easily approved.

Now, not only were they looking forward to the graduation exam, even the teachers were looking forward to what kind of results their Star War Experimental Class would achieve in the final graduation exam.

After checking his assets, Lan Xuanyu put them away. He went straight to the Exchange Center.

He was definitely a frequent customer of the Special Exchange Center, and he was definitely a big customer. He had even gotten a discount a long time ago.

He took the elevator and arrived at this familiar place. As soon as he entered, a young girl came up to him. The young girl was none other than Bai Xiuxiu.

“Yes, the new stuff has just arrived. It’s ready, “Bai Xiuxiu said to him in a low voice.

Every student had to work hard for their own Shrek emblem. After ending the Sky Fighter missions, Bai Xiuxiu competed for a job and became a service staff member of the Special Exchange Center. This was a suggestion given to her by Lan Xuanyu.

The Special Exchange Center wasn’t that busy, so it didn’t affect her cultivation. At the same time, there were many good things here. The aura of various Heaven and Earth treasures also had the effect of nourishing people. It was a rare place. The income was also quite good. After a month, she would be able to earn a purple emblem. If she added in the commission, it would be even more.

Lan Xuanyu, a big customer, naturally had a lot of commission when he bought things. He didn’t want the goodies to flow into other people’s fields, so he naturally had to benefit his own people.

Compared to more than a year ago, Bai Xiuxiu didn’t look much different, but her face was more beautiful. Her charm was more and more mature, and her figure had developed more perfectly.

Her long, dark blue hair was tinged with a faint purple color under the illumination of the light. Her entire being was cold and carried a hint of mystery. Although she was extremely beautiful, she gave off a feeling that strangers shouldn’t get close to her.

Compared to her, Lan Mengqin had changed much more. In the past, Lan Mengqin looked even colder than her, but after fusing with the Emerald Swan, Bi Ji, Lan Mengqin’s temperament gradually became gentler. Anyone in front of her would feel like a spring breeze.

“Okay. Let me take a look. “Lan Xuanyu naturally pulled Bai Xiuxiu’s hand.

Bai Xiuxiu slapped his hand away. “I’m working, don’t fool around.”

Lan Xuanyu chuckled and didn’t say anything. He followed Bai

Xiuxiu inside.

Chapter 809 - 809 – Preparations Before Leaving

809 – Preparations Before Leaving

All the students were well aware of their relationship. But from beginning to end, the two of them were both passionate and restrained by etiquette. They didn't go any further. They didn't make it clear that they were boyfriend and girlfriend.

Although they didn't say it to each other, they both had the same expectation in their hearts. They would talk about it after they entered the Inner Court. They were still young now, so they had to work hard and enter the Inner Court first.

He followed Bai Xiuxiu into the Special Exchange Office. Instantly, a fresh aura assaulted his senses. Lan Xuanyu's spiritual power was stronger than before, so his perception of life force was naturally sharper. He immediately felt the rich life force fluctuations here.

With a flash of light, the Treasure Seeking Beast came out of Lan Xuanyu's forehead.

Lan Xuanyu said, "Little Trea, you choose. According to the price range we can afford. It doesn't matter if we spend it all this time. "

Nothing was more important than breaking through. It was better not to use the god-level drop of life essence if possible. They could rely on other treasures to accumulate as much as possible.

"Okay, Master, leave it to me." The Treasure Seeking Beast directly came out of Lan Xuanyu's forehead.

Compared to more than a year ago, its body was obviously much more solid, and there were even three strands of yellow hair on its head. It looked a little funny.

Its pig's nose twitched, and then it immediately floated inside.

Lan Xuanyu followed behind it, and Bai Xiuxiu prepared to record at the side.

“Master, although there’s nothing particularly good, as long as it’s produced by the Eternal Tree, we can take it. The Eternal Tree is the true essence of the planet, and it’s god-level. Everything it produced was tainted with some divine aura. Just like why the water of the Sea God Lake is so helpful, it’s not just a matter of life force, but because of the level of life.

“The life force of Senluo Planet is not inferior to here, but the level of life is inferior. Therefore, we should still focus on the things produced by the Eternal Tree. Let’s take all these Endless Life Fruits. I’ll make juice for you later. “

Six Endless Life Fruits. Any one of these things would be sold for a sky-high price outside. Of course, there were many emblems needed to pay for them at Shrek Academy.

“Eh, this is not bad. This is the Star Anise Mysterious Ice Grass. Although it’s not old enough, I can cultivate it a bit more and raise it to another level. Although it isn’t at the level of a hundred thousand years, it is still acceptable. This too. “

Lan Xuanyu took a closer look. The 30,000-year Star Anise Mysterious Ice Grass was priced at 25 purple emblems. So expensive! It was really expensive!

25 purple emblems were enough to buy an antimatter missile.

The Treasure Hunting Beast didn’t stop. It was very clear about how many assets Lan Xuanyu had. In just a short while, he had spent more than 300 purple emblems.

“That’s all, Master. The rest aren’t worth buying.” The Treasure Hunting Beast shook its head and returned.

Lan Xuanyu asked, “Are these things enough for me to break through?”

The Treasure Seeking Beast said, “If you’re going to use the divine-level essence, then that’s enough. Otherwise we’ll need at least one

true 100,000-year-old Heaven and Earth treasure. We don't have it here. "

Lan Xuanyu's heart skipped a beat. Of course he didn't want to use the divine-level life essence. However, he heard that only the Inner Court had 100,000-year-old Heaven and Earth treasures.

"Alright, that's all. I'll ask Teacher if I can exchange for a 100,000-year-old Heaven and Earth treasure from the Inner Court. Then what do you think is the most suitable for me among the 100,000-year-old Heaven and Earth treasures? "Lan Xuanyu asked.

The Treasure Seeking Beast said, "The first choice should be the 100,000-year-old Strange Velvet Heaven Connecting Chrysanthemum. The Strange Velvet Heaven Connecting Chrysanthemum is extremely beneficial to bones and meridians. It can help protect your body during the breakthrough process. With it, your breakthrough should be more stable. Of course, if you add the Blazing Delicate Apricot and the 100,000-year-old Star Anise Mysterious Ice Grass, it'll be the best. With these three 100,000-year-old immortal herbs added together, I can guarantee that there won't be a problem for you to break through. "

The corner of Lan Xuanyu's mouth twitched. Putting aside whether the academy had them or not, the key was that they had to be able to afford them!

He had heard of these 100,000-year-old immortal herbs before. To ordinary soul masters, eating one would increase their soul power by five or six ranks. Yet, the Treasure Seeking Beast said that he had to eat three to ensure a successful breakthrough. Wasn't this too extravagant?

Bai Xiuxiu subconsciously took a step or two back.

"What are you doing?" Lan Xuanyu's senses were sharp and he immediately noticed.

Bai Xiuxiu giggled and said, "I don't think I can afford to feed you!"

Lan Xuanyu chuckled and said, "It's okay, I'll feed you."

Bai Xiuxiu slapped his outstretched hand away again. “Who needs you to feed me? I can do it myself. You should take good care of yourself first. Do you have enough emblems? I still have some. I’ll give them all to you. “

As she spoke, she took out more than 20 purple emblems and handed them to Lan Xuanyu.

More than 20 purple emblems were indeed quite a lot, but if it was to buy 100,000-year-old immortal herbs, it was definitely far from enough. Lan Xuanyu glanced at her and didn’t stand on ceremony with her, keeping them all.

Looking at Bai Xiuxiu, he sighed softly.

“Why are you sighing? Do you think it’s too little? “Bai Xiuxiu kicked his calf.

Lan Xuanyu said, “No! I just feel that since I’ve sold myself to you, I’ll be yours in the future. “

Bai Xiuxiu blushed. “Dream on, who bought you? I already said that I can’t afford to feed you. “

Lan Xuanyu said with an aggrieved expression, “I don’t eat much, you can totally afford to feed me.” He grabbed Bai Xiuxiu’s hand and pulled her towards him.

“What are you doing! Little Trea is still here. “Bai Xiuxiu hurriedly raised her hand and pushed his chest, her face turning even redder.

“I didn’t see anything.” The Treasure Seeking Beast was tactful. With a whoosh, it returned to Lan Xuanyu’s forehead and disappeared.

Lan Xuanyu exerted some strength, and Bai Xiuxiu’s hand slipped. She didn’t seem to be able to push him away and was pulled into his embrace.

He hugged her gently, his palm covering her soft hair. Through the hair, he could clearly feel the elasticity of her slender waist. Smelling the faint fragrance of her body, the lines on Lan Xuanyu’s

face unconsciously softened.

“Are you tired?” Bai Xiuxiu asked softly.

Lan Xuanyu shook his head. “I’m not tired. It’s just that there’s a knot in my heart that hasn’t been untied. “

“I know. Don’t think too much. If you really want to know more, then wait for your father to come back and ask him together. “Bai Xiuxiu naturally knew what was bothering him.

Lan Xuanyu’s bloodline was getting stronger and stronger, and he had gained the recognition of the academy’s higher-ups. He had even gained the recognition of the two soul beast kings.

However, it was also because of this that he became more and more curious about his own bloodline. Where did his Gold and Silver Dragon King bloodlines come from? Where did his fusion of the Dragon God bloodline come from?

He had asked Nan Cheng before, but his mother had told him that it was just a mutation.

With Lan Xuanyu’s intelligence, he could hear the ambiguity in Nan Cheng’s words. When he asked again, his mother changed the topic.

However, as a top student of the Shrek Academy, he increasingly felt that it was impossible for it to be a mutation. How could his mother’s elemental control and his father’s weak Martial Soul into the bloodline of the Dragon Gods? How was this possible!

Bloodline was related to one’s origin. He was also worried that he would hurt his mother’s feelings, so he didn’t dare to ask too much. However, this knot in his heart had always been there.

He was about to break through again. Once he succeeded, his bloodline would definitely improve. He had always had this thought in his mind, but he didn’t dare to say it.

Bai Xiuxiu was the closest person to him in the academy. She naturally understood what he was thinking. However, she couldn’t say anything about this matter. He could only rely on himself to

solve it.

Lan Xuanyu nodded gently and said, “Let’s wait until we enter the Inner Court. When my father comes back, I’ll go home and ask them about it. At least I have to know why my bloodline mutated. “

“Okay. Don’t think too much. Now that everyone is done with the forging. You have to prepare well for the next three months. You’re the backbone of all of us. Your condition is also related to our condition. “

Chapter 810 - 810 – The 3 Great Immortal Herbs' Expectations

810 – The 3 Great Immortal Herbs' Expectations

"Don't worry, I will." Lan Xuanyu hugged her a little tighter. He really didn't want to let go.

"Hurry up and go." Bai Xiuxiu punched him on the shoulder, blushing adorably. Lan Xuanyu's fresh and pleasant smell, especially his hot breath on her neck, made her heart beat wildly.

Lan Xuanyu reluctantly let go of her. "Don't forget what we agreed on. After you enter the Inner Court, you'll be my girlfriend."

Bai Xiuxiu pushed him out, but didn't say anything.

"If you don't say anything, I'll take it as a yes!" Lan Xuanyu was still smiling at her until the elevator door closed.

The elevator went down. Bai Xiuxiu looked at the closed elevator door, and a smile appeared on her face. She spat softly. "Dream on. Hmph! "

It really wasn't easy to find Tang Zhenhua now. Ever since he worked with the Tang Sect to develop the Sky Wing mechas, Tang Zhenhua didn't spend a lot of time at the Shrek Academy. Instead, he was at the Tang Sect's research institute.

Lan Xuanyu called his teacher and waited for almost two hours in Tang Zhenhua's office before Tang Zhenhua hurried back.

"You want a hundred-thousand-year-old Heaven and Earth treasure?" Tang Zhenhua immediately asked Lan Xuanyu as soon as he entered the door.

Lan Xuanyu nodded. "Yes! Teacher. I'm preparing to break through to five-ring. This breakthrough will definitely require a lot of life

energy. I need enough Heaven and Earth treasures to support it. Can you ask the Inner Court to let me buy a few? “

“A few? Do you know how valuable a hundred-thousand-year-old Heaven and Earth treasure is? “Tang Zhenhua said angrily.” I can ask for you. What do you want? Do you have a target? “

Lan Xuanyu said, “A hundred-thousand-year-old Strange Velvet Sky Chrysanthemum, a hundred-thousand-year-old Blazing Delicate Apricot, and a hundred-thousand-year-old Star Anise Mysterious Ice Grass.”

Tang Zhenhua stared at him, dumbfounded. Then, he pointed at the door. “Leave. Do you think 100,000-year-old Heaven and Earth treasures are cabbages? Three at once? Do you know how much this thing costs? “

Lan Xuanyu chuckled. “I’m just checking to see if there are any. How would I know the price? “

Tang Zhenhua said: “Starting from three black emblems. If you want these three at the same time, you have to get a red emblem. Otherwise, it’s impossible. “

Lan Xuanyu was secretly speechless. He thought that he was already quite rich, but he didn’t expect that these 100,000-year-old Heaven and Earth treasure would be so expensive.

“Isn’t it said that a black rank emblem can be exchanged for a hundred-thousand-year-old Heaven and Earth treasure?” Lan Xuanyu asked in surprise.

Tang Zhenhua snorted and said, “That depends on the item. How much was the Purple Immortal Ganodera you bought back then? There are different types of hundred-thousand-year-old Heaven and Earth treasure, as well as their rarity and uses. The three that you just mentioned are all among the best. How can a single black emblem be exchanged for them? “

Lan Xuanyu opened his mouth, but Tang Zhenhua continued, “I still have some savings over the years, but it’s not enough to help you

exchange for them. I'll ask your Dean Ying to gather more. I estimate that four black emblems will be enough. How many do you have? "

Lan Xuanyu hurriedly said, "No need, Teacher, I don't want to trouble you. Actually, if it's possible, I only need one Singular Velvet Heaven Connecting Chrysanthemum. I have three black emblems myself, and two hundred purple emblems. You should be able to exchange for them, right? "

Tang Zhenhua said in surprise, "You're so rich? Didn't you say you wanted three? "

Lan Xuanyu said, "That's the most ideal situation. Actually, one Singular Velvet Heaven Connecting Chrysanthemum should be enough. Blazing Delicate Apricot and Star Anise Mysterious Ice Grass should be used together for the best effect. The price is too expensive, so forget it. Let's talk about it in the future. Help me ask the Inner Court if there are any Singular Velvet Heaven Connecting Chrysanthemums. I should have enough money. There's also a black emblem here for you. "

Tang Zhenhua narrowed his eyes. After thinking for a while, he said, "What do you think you can achieve if you break through to five-ring? A conservative estimate. "

Lan Xuanyu shook his head and said, "I can't guarantee it either. Because my situation is quite special, I don't even know what I'll become after breaking through. But it feels like there will be a qualitative leap. "

Tang Zhenhua took a deep breath and said, "I understand. How about this, you wait here with me, I'll go to the Inner Court now. See if there are any immortal herbs you want. "

"Okay, then I'll have to trouble you." As he spoke, Lan Xuanyu took out his black and purple emblems and handed them to Tang Zhenhua.

Tang Zhenhua accepted the emblems, pondered for a moment, and turned to leave.

Lan Xuanyu secretly prayed that there must be a Singular Velvet Heaven Connecting Chrysanthemum! With this item, he would be fully prepared. He had to set off as soon as possible.

He really didn't know what he would become after breaking through this time. The reason why he had to prepare on such a large scale was because he had cultivated in the Icefire Yin Yang Well many times and had accumulated quite a lot of experience. It was because he had a faint sense of anticipation in his heart. If this time, after breaking through, all his soul rings could turn red and become one hundred thousand year soul rings. That would definitely be a huge change that would allow him to be reborn.

A ten thousand year soul ring and a hundred thousand year soul ring were definitely not the same concept! Even he himself couldn't judge how strong he would become.

But if he could have five hundred thousand year soul rings, with his twin martial souls, he would probably not be too far off from an ordinary eight-ring soul master.

Because of this, if he wanted to bear so many hundred thousand year soul rings, the requirements for his body would definitely be extremely high. That was why he had prepared all kinds of Heaven and Earth treasures. This was equivalent to using treasures to accumulate cultivation.

With two drops of God Rank Life Essence as his trump card, he would try not to use them for this breakthrough, but if he had to use them, he could only go all out. He had to break through to five-ring at all costs.

The most important thing was whether he could truly have five hundred thousand year soul rings. This was the most important point.

If he succeeded. If that were the case, then he would probably be the first such soul master in history. As for how far he would break through to six-ring in the future, that was not something he could consider now. From five-ring to six-ring, it might take many years. By then, he would have already entered the Inner Court and could

slowly accumulate.

When he thought about the possibility of his five soul rings breaking through to one hundred thousand year soul rings, his heart couldn't help but pound.

Furthermore, he wasn't worried at all that this situation would shock the world. He now had a Treasure Seeking Beast that was good at illusions! Although the Treasure Seeking Beast was far from its peak, it still had its divine sense. Its illusions could even be work on god-rank experts if they didn't pay special attention. Lan Xuanyu could disguise his soul rings into whatever color he wanted.

What Lan Xuanyu didn't expect was that he would wait for an extremely long time.

An hour passed, two hours passed, three hours passed.

The sky outside gradually darkened, but Tang Zhenhua still hadn't returned.

Teacher was actually gone for such a long time? Could it be that he failed ?

Even with Lan Xuanyu's calmness, he couldn't help but worry about personal gains and losses at this time. He wanted to call Tang Zhenhua, but in the end, he endured it. He secretly told himself in his heart that it was okay, if he really couldn't do it, he could just use the god-rank life essence to break through.

After all, a top-notch hundred thousand year immortal herb wasn't so easy to obtain.

Night fell, and finally, when Lan Xuanyu couldn't help but want to go back. Tang Zhenhua had returned.

And he wasn't the only one who came back. Along with Tang Zhenhua were Ying Luohong there was also Elder Shu, who Lan Xuanyu didn't expect.

"Elder Shu, Teacher, Dean Ying. You are … "Lan Xuanyu hurriedly stood up to greet them.

Elder Shu said in a bad mood, “Why didn’t you tell me that you were preparing to break through? Are you looking down on this old man? “

Chapter 811 - 811 – Special Approval Of The Sea God Pavilion Council

811 – Special Approval Of The Sea God Pavilion Council

“Ah? I didn’t want to trouble you. “Lan Xuanyu hurriedly said with an apologetic smile.

Elder Shu curled his lips. “Do you think Little Tang can do it for you ? Without me, you still want a 100,000-year-old immortal herb? It’s simply a pipe dream. How could such a thing be so easy to obtain? Even in the Inner Court, it needs special approval. We still need to discuss it with the Tang Sect. What’s more, you asked for three at once. This is not something that can be measured with emblems. “

Tang Zhenhua smiled. “It’s all thanks to Elder Shu this time. Otherwise, let alone three, we wouldn’t have been able to get one! Elder Shu is really too good to you. “

Lan Xuanyu’s eyes lit up. Listening to his teacher’s words, the matter was settled?

Elder Shu said solemnly, “A 100,000-year-old immortal herb at the level of a Heaven and Earth treasure is not only expensive, but more importantly, it is rare. If we are willing to sell it, who knows how many people will buy it with astronomical amounts of money. Therefore, there has always been an agreement between Shrek and the Tang Sect. A treasure of this level must be approved by both parties at the same time, and the buyer must be verified before it can be sold. “

“You are not an Inner Court disciple yet, so logically speaking, you are not qualified to be specially approved. However, you are the future leader of the School of Life that I have determined, and it has already been filed with the school, so the situation is different. Moreover, your bloodline is special, so you need these things

without any other thoughts. I applied for an impromptu Sea God Pavilion meeting, and invited the higher-ups of the Tang Sect to come over and study it. In the end, we decided to sell it to you. In addition to your own part, Little Tang and little Ying helped you pay a part of it. The rest was made up for by the internal members of the school. But this is the school's public funds, and you will have to pay it back in the future. It cost a total of 16 black emblems. "

"16?" Lan Xuanyu exclaimed and almost jumped up.

This was not a purple emblem, but a black emblem! Sixteen black emblems, this was definitely an unimaginable astronomical figure.

Ying Luohong glared at him and said, "Holding a Sea God Pavilion meeting for an Outer Court disciple like you is even more amazing than 16 black emblems. It's clear how important you are to the academy. If it weren't for Elder Shu and your identity as the successor of the School of Life, as well as a candidate of the Shrek Seven Monsters, you wouldn't have been able to get anything. This was simply impossible. This thing can't be measured by its value. "

"Thank you, Elder Shu. Thank you, Dean and teachers. I understand. "While Lan Xuanyu was shocked, he was also moved.

It had been five hours since Tang Zhenhua left. He didn't expect so many things to happen in these five hours.

How could he not feel the love that his teacher, Elder Shu, and Principal Ying had for him? This was especially true for Elder Shu. Ever since they first met, Elder Shu had spared no effort in helping him.

The Life Scepter, the Ring of Fate, the Divine-Tier Life Essence, the free cultivation in the Sea God's Lake, and the Sea God's Pavilion meeting to purchase these three Heaven and Earth treasures. This kindness was so great that Lan Xuanyu didn't know how to repay it.

Elder Shu waved his hand and said, "There's no need to thank me. Since I still have a few years to live, I naturally have to help you on your journey. Otherwise, your position as the leader won't be stable

in the future. Furthermore, I see hope in you. I don't want you to be like me, relying on the support of the school to barely make it to the God-rank. I hope you can become a truly powerful God-rank. There's no need to thank us. If you really want to thank us, then become a Shrek Seven Monster. That's what we're most grateful for. "

"According to the rules, these three Heaven and Earth treasures can't be given to you directly. The school and Tang Sect won't allow them to be sold. Therefore, I'll personally go to Senluo Planet with you and watch you consume them to cultivate. I've vouched for this in the Sea God's Pavilion. At the same time, I'll stand guard for you. "

Lan Xuanyu took a deep breath and resisted the urge to cry. Then, he bowed deeply to Elder Shu again.

There was no need to express his gratitude. At this time, he only felt that the tiredness from forging and the slack from being busy had all disappeared in an instant. What replaced it was only a strong fighting spirit.

Without further delay, early the next morning, Lan Xuanyu and Elder Shu took a spaceship to Senluo Planet and left the Mother Planet.

Shrek Academy, Outer Court Dean's office.

"He's gone, right?" Ying Luohong asked Tang Zhenhua sitting on the sofa.

Tang Zhenhua nodded. "With Elder Shu personally standing guard for him, there shouldn't be any problems with the breakthrough this time. Although he's only going to break through to five-ring, I don't know why, but I have a hunch that this kid will definitely have a qualitative change when he comes back this time. "

Ying Luohong said angrily, "How can there not be a qualitative change? Three kinds of Heaven and Earth treasures at the level of a hundred thousand years. Only you guys insist on accompanying him, aren't you afraid that he'll be stuffed to death? "

Tang Zhenhua said, “The Sea God’s Pavilion didn’t object, what am I afraid of? This kid’s five-ring strength can’t be judged by common sense. During the battle in the branch courtyard, didn’t you also gasp in amazement when he controlled his elements with a four-ring cultivation? When he reaches five-ring, who knows what he’ll become. “

Ying Luohong said, “The academy does indeed attach great importance to him. I didn’t expect that even the Pavilion Master would come to the Sea God’s Pavilion meeting yesterday, and personally support the sale of these three Heaven and Earth treasures to him. Otherwise, just us alone wouldn’t be enough. The academy seems to have given him too much of an advantage. However, I believe that the teachers’ foresight must be more accurate than mine. I’m also looking forward to what kind of little monster this kid will become. “

Tang Zhenhua chuckled and said, “Then let’s wait and see. By the way, what exactly is their class going to be tested on in the graduation exam, are they ready? “

Ying Luohong said, “The general questions have already been set. The situation of their experimental class is special. Therefore, the graduation exam set by the academy for them must be difficult and as safe as possible. After all, even the students who can’t enter the Inner Court will collectively enter Tang Sect to continue their studies. After entering the Inner Court, they will have more practical activities to cultivate. “

Tang Zhenhua said, “Let’s wait for them to bloom. Maybe the Sky Wings will become the pride of our academy in the future. These are the students I taught. Luohong! You see how hard I worked to cultivate the Outer Court students. Shouldn’t you consider the matter between the two of us? “

Ying Luohong said coldly, “What matter between the two of us? Didn’t we cut off all ties a long time ago? “

Tang Zhenhua stammered, “It’s been so many years, you still can’t forgive me? It was really a misunderstanding at that time! Although this misunderstanding is also my fault, it’s all my fault. But you

have to give me a chance. You also know that I haven't even stepped out of the academy's gates these years. Even if you sentence me, there will be a day when it will expire, right? "

Ying Luohong snorted, and her voice didn't seem as cold as before. "You were sentenced to life imprisonment."

Tang Zhenhua couldn't be more familiar with her, and could hear that she was softening again. He hurriedly struck while the iron was hot and said, "Even if it's life imprisonment, there's still a probation period. It's been ten years. For ten years, you can see what I've been doing every day. I've been repenting for ten years, and I deeply know that I was wrong. Why don't you set another deadline, no matter how long it is, I'll wait, okay? "

Ying Luohong rolled her eyes at him, "Okay what? Hurry up and leave, aren't you still doing research and development with Tang Sect? "

Tang Zhenhua pursed his lips and made an "En" sound, a bit more lonely and desolate in his eyes. "Then I'm leaving." After saying that, he looked at Ying Luohong with a somewhat complicated expression, and then turned around and left.

Looking at his slightly desolate back, Ying Luohong opened her mouth and wanted to call out to him, but in the end, she didn't. She subconsciously clenched her fist and slowly opened it again.

Chapter 812 - 812 – The School Of Life’S Secret (First Part)

812 – The School Of Life’s Secret (First Part)

The spaceship flew steadily in space. Lan Xuanyu sat upright and still beside Elder Shu, listening to Elder Shu tell him about the School of Life.

Although Elder Shu had long decided that he was the successor of the School of Life, he really didn’t have much time to communicate with Elder Shu.

Elder Shu smiled and said: “Since I have the opportunity to come out with you this time, I will tell you about our School of Life.”

“Our School of Life was established on the day Eternal Sky City was established. In fact, our biggest role is to be in contact with the Eternal Tree. At the same time, we protect the Eternal Tree and the life source of our Mother Planet. This is also the most important duty of our School of Life. “

“The School of Life only has one criterion for recruiting newcomers, and that is life affinity. Everyone has their own life force. The strength of life force often determines a person’s physical state, and the amount of life force determines a person’s lifespan. The so-called life affinity is the degree to which one’s life force resonates with the life force of the outside world. “

“Normally speaking, the life force of an ordinary person can’t resonate with the life force of the outside world. There are many sources of life force in the outside world. Soul beasts have life force, plants have life force. Even rare metals that have undergone high-grade forging may have their own life force. Life affinity refers to our ability to have affinity with the life force of the outside world, to be able to resonate with it, and even absorb it, as well as stimulate it to improve ourselves. “

“The reason why you were chosen is because your Life Affinity Physique is something we’ve never seen before. You have an almost homogenous affinity with the life force of the outside world, especially the life force of the plant system. That’s why you can absorb such a huge amount of life force from the outside world. “

“Let me give you an example. Ordinary students can also feel the life energy of Sea God Lake when they cultivate in our academy, and can also feel the life force from the Eternal Tree. However, this huge life force will only have a subtle influence on their life force. It is absolutely impossible for them to be like you, where you don’t have to do anything at all, and the life energy will naturally surround you, or even take the initiative to join your body. You may be used to it by now, but I have to tell you that you are very different from others in this regard. Even I can feel very comfortable by your side. This is the natural attraction of life energy. When I’m with you, your life affinity will make my nearly exhausted life force feel rejuvenated. “

Lan Xuanyu listened to Elder Shu’s explanation, and for the first time, he truly understood Life Affinity.

Elder Shu continued, “Life affinity is the foundation. With such a strong Life Affinity Physique, your future is limitless. Although your Martial Soul is special and is difficult to cultivate, you must believe in your own foundation. What’s more, not only do you have Life Affinity, but you also have Elemental Affinity. Such a unique constitution is something that has never been recorded in history, let alone seen before. The reason why it’s so difficult for you to increase your cultivation might also be related to this. After all, when Heaven opens a door for you, it is very likely that it will close a window for you. “

Lan Xuanyu didn’t say that it was because of the conflict between his two bloodlines that made it difficult for him to increase his cultivation. In fact, the increase of his soul power was also relatively slow. What Elder Shu said was very likely true. Because of his Life Affinity Physique, and also because of his special body, a lot of the energy absorbed during the process of cultivation was actually absorbed by his body and not converted into soul power. This was so that his body could withstand the strength of his

bloodline.

Lan Xuanyu felt this especially clearly in the past one or two years. With the help of the Treasure Seeking Beast, he had eaten many good things, and also had the nourishment of the Chaos Water. During this process, he discovered that his body had actually absorbed a lot of energy. With so much energy, if all of it was used on soul power, his soul power would have broken through long ago.

However, it was also because of this that the strength of his body continued to increase. Perhaps it was because he had accumulated a lot of energy, but now, even he didn't have an accurate estimate of how strong his body was. After all, after the fifth and sixth year, the academy wouldn't do a basic physical test. The only standard to measure his strength was that he had undergone a test with Qian Lei.

In terms of strength, the current Lan Xuanyu wasn't inferior to Qian Lei's bonded Golden Behemoth in the slightest. Furthermore, this was under the premise that Qian Lei had transformed into his human form.

Only his friends knew just how powerful Lan Xuanyu was in this aspect. Furthermore, his regenerative abilities were also extremely strong, and he almost didn't know what fatigue was.

When he practiced forging, he never stopped because his body was exhausted. This was because he didn't feel tired at all. He would only stop forging when his mind couldn't take it anymore. His immense strength and continuous energy were the only things that had allowed him to reach the pinnacle of a sixth-rank blacksmith in just a few short years. His success rate for Spirit Forging was extremely high now, and this was under the circumstances of Fuse Forging. He was only one step away from becoming a true Grandmaster, and he would be able to forge soul refined metals.

If it weren't for the upcoming graduation exam, Lan Xuanyu really wanted to make a breakthrough in Soul Forging. With his accumulation, as long as he had the guidance of an expert, a breakthrough would be a natural process.

Therefore, Lan Xuanyu was no longer worried about the slow progress of his cultivation over the past two years. It was completely different from when he first entered Shrek. The continuous improvement of his physical fitness greatly made up for the problem of his soul power. He was already seventeen years old now, and he knew more and had more ideas than before. Accumulating more was definitely not a bad thing for him.

The best age for a normal soul master to cultivate and improve was before the age of thirty. However, Lan Xuanyu felt that even if he was older, the speed of his improvement wouldn't decrease. Although he only had four rings now, he was indeed not inferior to an ordinary seven-ring soul sage. With the combination of his various characteristics, he still had an important position in the team.

Elder Shu said, "Our School of Life is equivalent to controlling the lifeline of the Mother Planet, so we have a very special position in the Federation. I'm also a member of the Federation, which you might not know. After you take over in the future, you will also inherit this position. Our position is permanent, so we don't need to go through an election. Also, you can enter the Sea God's Pavilion in the academy. Because you are young, you might only be an ordinary member when you enter the Sea God's Pavilion in the future. But as your strength increases and your contributions increase, you should be able to become a deputy pavilion master. This is all given to you by the School of Life. "

At this point, Elder Shu's expression suddenly became serious. "However, you also have to bear the responsibility of the School of Life. First, you have to protect the Eternal Tree. The Eternal Tree is the source of life of the entire Mother Planet, raising the Mother Planet to god-rank. Within the Federation, who knows how many people covet the Eternal Tree's immense life force. If it weren't for the academy's protection, who knows what would have happened. And we are in charge of protecting the Eternal Tree in the academy. "

"Internal conflicts are easier to deal with. After all, those people only want to use the Eternal Tree. But it's different when they come from the outside. With the Federation's interstellar colonization, we

have already touched the interests of some old and powerful forces. The war has always been going on, but it's all in a far away galaxy, so the people aren't aware of it. After so many years, these forces from the outside world have long known the significance of our Eternal Tree to the Federation, so there have been several powerhouses who have come to the Mother Planet in an attempt to destroy our Eternal Tree. Therefore, we are duty-bound to protect the Eternal Tree. Even if we have to pay with our lives, we must protect it well. It is the core of the entire Federation. "

Chapter 813 - 813 – The School Of Life’S Secret (Second Part)

813 – The School Of Life’s Secret (Second Part)

Yes. “Lan Xuanyu agreed solemnly.

Elder Shu said, “Other than the Eternal Tree, we have many other assets. They are all related to life energy. For example, on Senluo Planet and the Elven Planet, our School of Life represents the Federation and has benefits. Especially the control of the life cores of these two planets. After you enter the Inner Court, I will bring you to these two planets to check on the life cores. We also have to protect the life cores of these two planets. The soul beasts will also cooperate with us. “

“Why is Lin Mohua on Senluo Planet? He is actually representing our School of Life to protect the life cores there. The life cores of Senluo Planet are extremely important. As for the Elven Planet, because the Federation and the Elves have reached an agreement, the life cores there are mainly guarded by the Elves, but we have the right to inspect them. This is all under the responsibility of our School of Life. “

Lan Xuanyu memorized everything. The more he listened to Elder Shu, the more he understood how important and powerful the School of Life was.

“There aren’t many people in our School of Life, only about 200 people in total. After all, there are too few soul masters with life affinity, and this is the foundation for joining our School of Life. When you enter the Inner Court, I will officially introduce them to you. “

“Okay.” Lan Xuanyu nodded.

Elder Shu said, “Now, let me tell you some important things to take note of in our School of Life …”

In the next few days, during the flight, Elder Shu began to teach Lan Xuanyu earnestly and explained all sorts of important matters regarding the School of Life, allowing Lan Xuanyu to gradually understand this important school. He also gradually understood how important the School of Life was.

The School of Life actually didn't only belong to the Shrek Academy. It was just closer to the Shrek Academy as it originated from there. But in fact, the School of Life also had responsibilities to the Tang Sect and the Federation government.

More directly, the School of Life belonged to all of humanity. In the School of Life, there was a portion of people who specialized in life energy research with the goal of increasing human lifespan. There was also a portion of powerhouses who existed to protect the life sources that the School of Life had to protect.

Like Elder Shu himself, he was actually more inclined towards the direction of research, while Lin Mohua was more inclined towards the direction of protection.

Hence, Elder Shu wasn't the number one powerhouse in the school, Lin Mohua was. This was also the important reason why Lin Mohua wanted to test Lan Xuanyu when he first came to Senluo Planet. Only with Lin Mohua's approval could he be able to live up to his reputation as the future leader of the school.

The School of Life had a huge amount of resources. Everyone wanted to live longer. Therefore, in the Federation, the School of Life had a transcendent status.

The leader of the School of Life had three great tokens, and the Ring of Fate was one of them. The other two tokens would only be given to Lan Xuanyu when he became the leader of the School of Life in the future.

Time passed very quickly during the learning process. When the green color of Senluo Planet appeared outside the porthole, Elder Shu stopped talking.

Lan Xuanyu had been here several times, so he was very familiar

with this place.

The more he came, the more he understood the difference between Senluo Planet and Mother Planet. Just like what the Treasure Seeking Beast had said, Senluo Planet lacked divinity compared to Douluo Planet. It wasn't inferior in terms of volume, but its level of energy was obviously inferior.

The amount of life energy required to raise the level of life on a planet was definitely astronomical. Mother Planet had only completed its final transformation after it devoured the Abyssal Place that tried to invade it.

However, the total amount of life energy in Senluo Planet was still very large. Cultivating here, especially in the Ice Fire Yin Yang Well, was very beneficial to Lan Xuanyu.

After his few visits, the soul beasts were still very welcoming. The reason was very simple. Every time Lan Xuanyu cultivated, the aura of the chaotic water that was filtered by the treasure-hunting beasts and the chaotic energy produced by the Ice Fire Yin Yang Well would cause the surrounding vegetation to grow faster. Many Heaven and Earth treasures had matured.

Although the Ice Fire Yin Yang Well would consume a lot of energy every time and needed a long time to recover, such a process was undoubtedly a good thing for soul beasts. It could help more soul beasts break through.

The spacecraft slowly landed in Senluo City's space center. Outside the spacecraft, someone was already waiting to pick them up.

A beautiful woman with long, golden-red hair draped behind her back and a figure so hot that no normal man could take their eyes off of her stood at the exit.

When she saw Lan Xuanyu and Elder Shu, she waved at them.

Lan Xuanyu hurriedly walked forward and smiled. "Sister Jin, why did you come to pick us up?"

The girl said, "I can't help it. Who asked you to bring us so many

benefits every time you come?”

This beautiful woman with a sweet smile was none other than the Golden Tiger who had been appointed as the successor by Da Ming and Er Ming.

She had consumed many Heaven and Earth treasures beside the Ice Fire Yin Yang Well and completed her breakthrough. She had completely transformed into a human.

However, because of her special bloodline, she didn’t need to cultivate again. Furthermore, she could return to her Golden Tiger form.

Lan Xuanyu wasn’t too sure about her strength. He only felt that she was unfathomable after her breakthrough.

She definitely wasn’t yet at God rank, but according to Lan Xuanyu’s judgment, she was at least a Titled Douluo.

“Elder Shu, you’re here too.” Jin greeted Elder Shu. She was actually much older than Elder Shu. Although Elder Shu was a God-rank powerhouse, she didn’t need to use honorifics.

“Hello, Jin Wang.” Elder Shu chuckled.

“Let’s go. Eldest uncle and second uncle are waiting for you. I’ll send you directly to the Ice Fire Yin Yang Well. “As she spoke, she whistled.

Suddenly, the sky was pressed down, and a huge figure descended. It was a huge green bird with a wingspan of more than ten meters. There were actually a few seats installed on the back of the green bird.

This green bird had close to eighty thousand years of cultivation. Using it as a mount was the best treatment for soul beasts on the Senluo Planet.

The three of them got on the green bird. The green bird flapped its huge wings and soared into the sky. Sitting on its back, they couldn’t feel any wind blowing at them. This was because it

naturally released a layer of green barrier that protected its entire body.

The scenery under their feet flashed by quickly. The Green Bird's flight was extremely stable. It was even more comfortable than sitting on an airplane.

Soon, it determined its destination. It spread its wings and glided down towards the ground.

Two tall figures were already waiting there. Other than Er Ming, who Lan Xuanyu was familiar with, there was also a middle-aged man who looked like a deep pool.

That middle-aged man had his hands behind his back. His long green hair was draped behind his head. His face was simple and unsophisticated. Just by standing there, it felt like the world was in his grasp. His aura was even stronger than Er Ming's.

Lan Xuanyu and the other two dismounted from the green bird. Jin Wang ran over with a smile and said, "Eldest uncle, second uncle, I've brought them here."

"Mm." That green-haired man smiled and nodded.

Lan Xuanyu and Elder Shu hurried forward. Elder Shu smiled and said, "Why did the Azure Emperor come today?"

The green-haired man smiled and said, "I'm also here to take a look. Xuanyu, right? Come. "As he spoke, he waved at Lan Xuanyu.

Lan Xuanyu hurried forward and said respectfully, "Senior Da Ming." Without a doubt, this was the strongest beast king on the entire Senluo Planet. He was the divine beast king known as the Azure Emperor, the Sky Azure Bull Python, Da Ming!

Er Ming's face darkened and said, "What Emperor? Don't call me that. It's quite unpleasant to hear. "

The Jin Wang giggled. "Second uncle, weren't you very happy when everyone called you Tai Emperor back then? Wasn't it because you found out that humans use a pet dog name Teddy* that you were

too embarrassed to use this title? “

”Tai DI” same pronunciation as Tai Emperor

Chapter 814 - 814 – Tai Emperor, Teddy ?

814 – Tai Emperor, Teddy ?

“You little girl!” Er Ming glared at her with an ugly expression.

Tai Emperor? Teddy? Lan Xuanyu almost laughed out loud, but he forced himself not to.

Da Ming sized up Lan Xuanyu, who was standing in front of him. He seemed to be silently sensing something, and then he slowly nodded. “You are indeed our seed of hope. No wonder Di Tian made such a choice despite his arrogance. I heard that you are preparing to break through today. Are you ready? “

Lan Xuanyu nodded. “I should be able to.”

Da Ming said, “Then rest for a while, and then you can begin. We will watch over you here. “

“Thank you, Senior.” Lan Xuanyu felt his heartbeat quicken. To him, this breakthrough was too important. He couldn’t be careless, but he was also looking forward to the effects of this breakthrough.

He didn’t say anything else. He walked to an empty spot and sat down cross-legged. He closed his eyes and began to meditate to adjust his state.

Da Ming looked at Elder Shu and asked, “How confident are you?”

Elder Shu nodded and said, “There shouldn’t be any problems. I have brought many Heaven and Earth treasures this time. They were all specially approved by the academy. The academy also values this child very much. The School of Life will also support him wholeheartedly. The Sea God’s Pavilion is also waiting to see the results of his breakthrough. This is closely related to the teaching and guidance he will receive when he enters the Inner

Court. “

“Mm.” Da Ming said, “Our research results are almost complete. After two more rounds of testing, we should be able to mass produce them. Since you are here, help us take a look and see if there are any problems. “

Elder Shu’s eyes lit up. “That’s great. I didn’t expect the progress to be so fast. Mohua is hosting over there? “

Da Ming nodded slightly. “We can still hide the fact that we are conducting small-scale tests. Once we mass produce them, it won’t be easy to hide. That’s why I am preparing to place them in the Myriad Beast Platform. Then, I am preparing to leave with the Myriad Beast Platform for a while and conduct tests in places that the Federation can’t find. That’s why I am here today to tell you. When the time comes, Lin Mohua will definitely be coming with me. As for the Central Academy of the Federation, you have to ask Shrek to send someone over. At the very least, it’s a temporary replacement. “

Elder Shu frowned slightly. “It’ll be troublesome for the Central Academy of the Federation to change people. After all, this had always been the Federation’s most important school. How long will it take? Do you have an estimate? “

Da Ming said in a deep voice, “About half a year to a year. At least at this time. Otherwise, the test wouldn’t be complete. This time, I plan to get three to five people to test it out. If it’s possible, we can manufacture it on a larger scale. “

Elder Shu said, “Alright, I’ll think of something. I will report this matter to the Pavilion Master when I return. When will you take me there? “

Da Ming said, “Let’s wait for Xuanyu to complete his breakthrough. For the School of Life, this is also a big deal. If you think it’s okay, he can also go and take a look. “

Elder Shu was slightly stunned. Their cooperation with the Senluo Planet soul beasts was extremely secretive. Even the Federation

didn’t know about it. It was truly a top secret. Although Lan Xuanyu was already the successor of the School of Life, he was still young and hadn’t truly taken over. He didn’t expect Da Ming to think so highly of Lan Xuanyu. One had to know that this top secret was the most important thing to the Senluo Planet soul beasts. The level of secrecy was far higher than the Ice Fire Yin Yang Well.

“I have no problem. There’s nothing wrong with this child’s temperament. Even the Sea God Pavilion acknowledges him. As long as you think it’s okay, then I think it’s definitely okay. “Elder Shu hurriedly said.

Da Ming nodded and said, “Let’s watch him break through first. After he succeeds, we’ll go and take a look together. “

“Alright.”

Lan Xuanyu took longer to adjust than everyone expected. After a full five hours, he slowly opened his eyes.

At this moment, his essence, energy, and spirit were completely adjusted to their peak state.

When Lan Xuanyu slowly stood up, his aura started to change.

Jin Wang was the closest to him, so she could feel it the clearest. When Lan Xuanyu stood up, she felt as if there was a huge dragon stretching its body in front of her.

The blood energy fluctuations that burst forth from Lan Xuanyu’s body made her feel as if her own blood was boiling.

So hot !

It wasn’t really hot in terms of heat, but the intense blood energy fluctuations that burst forth from Lan Xuanyu’s body caused her to feel this way.

Lan Xuanyu’s eyes focused as he looked at the Ice Fire Yin Yang Well in front of him. After pausing for a moment, he didn’t communicate with anyone else. Instead, he walked over step by step.

With every step he took, the blood energy fluctuations on his body became denser. Vaguely, waves of dragon roars started to reverberate around his body.

It wasn't just one dragon roar, but two dragon roars. One was deep and heavy, while the other was clear and impassioned. The two dragon roars started to become more and more intense as he walked forward. Gradually, light flickered on both sides of his body. The left side was silver, and the right side was gold.

From behind, Lan Xuanyu's hands were covered in scales of different colors.

Shock flashed through Da Ming's eyes. He was a Sky Azure Bull Python and could be considered a Sky Dragon. However, he wasn't a pure Sky Dragon. After becoming a god, he had evolved into an Sky Azure Divine Dragon. He didn't have a pure Dragon race bloodline, but his strength wasn't inferior to a True Dragon's.

However, at this moment, he felt pressure from Lan Xuanyu's body. Even his god-level bloodline was trembling slightly.

What a powerful bloodline power.

Compared to him, Er Ming's reaction was less. The difference between the Titan Giant Ape bloodline and the Dragon race bloodline was far greater.

However, Jin Wang's eyes were shining. In particular, she stared at Lan Xuanyu's right hand.

As the inheritor of the Golden Bloodline and a true Golden Beast King, she could feel that the golden scales on Lan Xuanyu's right hand were emitting the aura of the Golden Bloodline!

This was the first time she felt that someone's bloodline was purer than hers. The aura of the Golden Bloodline, which was filled with violence, made her blood boil even more. She even had the urge to pounce on him and feel his bloodline up close.

Golden Dragon King ! This was the aura of the Golden Bloodline, the most powerful bloodline.

At this moment, Lan Xuanyu had already walked in front of the Ice Fire Yin Yang Well. At this moment, his eyes had turned gold and silver.

As he walked forward step by step, he had already let go of the suppression on his soul power and allowed it to increase. Meanwhile, his gold and silver bloodlines, which had been circling around each other but didn't touch each other, started to fight once again.

But this time, Lan Xuanyu felt different from when he broke through to four-ring. The biggest difference was that the rainbow-colored scales on his chest emitted a gentle rainbow-colored halo that covered his bloodline vortex, causing the bloodline power of the Golden Dragon King and Silver Dragon King to not be so violent this time.

Without hesitation, he took a step forward and jumped into the Ice Fire Yin Yang Well. His entire body sank in.

The moment he sank into the Ice Fire Yin Yang Well, the Treasure Seeking Beast came out of his forehead. Lan Xuanyu's Ring of Fate was already on its hand. The Treasure Seeking Beast waved its hand, and all the Endless Life Fruits they had exchanged for flew out. Instantly, a strong life force burst forth and entered Lan Xuanyu's body from his limbs and bones.

Elder Shu could naturally sense the aura fluctuations of the Endless Life Fruits, and his mouth twitched. There were so many Endless Life Fruits. If they were sold anywhere in the Federation, they would definitely fetch a sky-high price! However, the Treasure Seeking Beast gave them to Lan Xuanyu just like that.

He wasn't the only one. Da Ming and Er Ming's eyelids twitched. In terms of extravagance, no one in this world was more extravagant than the Treasure Seeking Beast.

Er Ming had seen it many times before. When the Treasure Seeking Beast gave Lan Xuanyu Heaven and Earth treasures, it would only take the essence. The rest would turn into life force and dissipate into the air. It didn't care about wastage at all.

Chapter 815 - 815 – The Great Breakthrough

815 – The Great Breakthrough

According to the Treasure Seeking Beast, only that little bit of essence was worthy of its master. After all, this essence was the easiest to absorb and was the purest without any impurities.

However, the remaining things were also good in the eyes of Elder Shu, Da Ming, and Erming.

What a waste!

Yet, the Treasure Seeking Beast did this.

This was very beneficial to all of the plants around the Ice Fire Yin Yang Well. The life force energy that had drifted through the air would fuse into the plants around the Ice Fire Yin Yang Well, thereby accelerating their growth. As such, Da Ming and Er Ming naturally had nothing to say.

Elder Shu was the most distressed because the treasures that the Treasure Seeking Beast used now were all brought over from the Shrek Academy.

Lan Xuanyu, whose body was immersed in the Ice Fire Yin Yang Well, was exceptionally calm at this moment. He silently felt the changes in his body. The bloodline power in his chest became more and more restless, and so did the vortex in his Spiritual Sea.

The fierce and restless bloodline power caused the bloodlines of Golden Dragon King and Silver Dragon King to collide again. At this moment, the nourishment of the Chaotic Water over the past two years and the benefits of the Ice Fire Golden Body Tempering were shown.

At first, he did not feel any pain. His strong body withstood the

collision of the two bloodlines. This also allowed him to breathe a sigh of relief, especially when the life energy that had fused with his limbs and bones was rapidly nourishing his body, allowing his endurance to become even stronger.

Although the collision of the two bloodlines became more and more intense, and the ice and fire energy from the Ice Fire Yin Yang Well began to invade his body, it was still within Lan Xuanyu's endurance.

Seconds, then minutes passed. Lan Xuanyu's situation was still very stable. The ice and fire energy entered his body and merged with his body under his guidance. It merged with the bloodline power of Golden Dragon King and Silver Dragon King.

There was collision and infiltration. He could feel the changes in his body.

He began to feel pain, but he could still endure it. His strong body blocked the intense impact time and time again. His Spiritual Sea was protected by the Treasure Seeking Beast's divine sense. For a moment, he entered a benign state.

His body began to absorb the bloodline aura produced by the collision between the bloodlines of Golden Dragon King and Silver Dragon King, and this bloodline aura began to nourish his body.

Lan Xuanyu thought to himself. Looks like it's really useful to have a good foundation. Especially with the improvement of my body, the benefits are starting to show!

At this moment, the Treasure Seeking Beast's voice suddenly rang in his mind. "Master, don't be careless. This is just the beginning. It won't be that easy. The more you suppress it, the more intense the reaction will be. You must be prepared and not relax. The Golden Dragon King's bloodline and the Silver Dragon King's bloodline are completely different. One represents creation while the other represents destruction. As your bloodline power increases, so does the other. They had yet to truly collide, but once they did, it would be as if the heavens and earth were to fall apart. Every time you make a breakthrough, it's actually a process of breaking and then

building. “

Lan Xuanyu was shocked.

The Treasure Seeking Beast’s words made him tense up again. He hurriedly focused and felt the changes in his body, trying to control his bloodline as much as possible.

Indeed, under the influence of his Dragon Gods bloodline, the collision between the Golden Dragon King and Silver Dragon King bloodlines had decreased by a lot. However, they still continued to search for each other’s power to collide.

The breakthrough of soul power was like breaking through the thin film that separated the two, allowing them to constantly come into contact.

The two bloodlines seemed to be brewing emotions. Although they were controlled and suppressed by Lan Xuanyu and did not collide with each other at full strength, it did seem like something was accumulating.

Lan Xuanyu sensed it silently, and time passed minute by minute.

Gradually, Lan Xuanyu felt that something was wrong. This was because he realized that at first, the Golden Dragon King and Silver Dragon King bloodlines did not affect his emotions. However, as time passed, their influence on his emotions was increasing.

It was a feeling of “the wind sweeping through the tower before a storm”. If this continued, once the Golden Dragon King and Silver Dragon King bloodlines collided more violently, it would really cause the world to collapse. Would he explode and die?

“Little Trea, this can’t go on. The two bloodlines seem to be getting stronger and stronger, and the power of the bloodlines is increasing exponentially. What should I do? “Lan Xuanyu hurriedly asked the Treasure Seeking Beast in his mind.

The Treasure Seeking Beast said helplessly, “Master, this is what you have to face when breaking through. After the power of the bloodlines increases and then fuses, it will cause a qualitative

change in your strength. This is indeed difficult, but it is a path that you have to go through. Don't worry, I will help you control it, but you have to be prepared to withstand the bloodline explosion. "

"Okay.

At this point, Lan Xuanyu had no other choice but to face it.

After an unknown period of time, the aura of the two bloodlines in Lan Xuanyu's body became stronger and stronger. What made Lan Xuanyu even more uneasy was that the spiritual vortex in his mind was also becoming more and more violent. Even the Treasure Seeking Beast's divine sense was somewhat unable to suppress it.

The spiritual vortex and bloodline vortex were connected to each other. At this moment, the two began to fluctuate violently and affect each other, as if something was being drawn out.

Lan Xuanyu tried his best to calm down and absorb the energy from the Ice Fire Yin Yang Well, as well as the life energy from the various natural treasures that the Treasure Seeking Beast was constantly purifying for him, increasing his body's tolerance.

He now understood that the moment the two bloodlines exploded would be the moment he broke through. Perhaps it would happen in an instant.

What he had to do now was to prevent himself from exploding and dying at that moment.

On the shore of the Ice Fire Yin Yang Well, the four powerful beings were still waiting.

Three days, three days had already passed. Apart from occasionally releasing a rich life energy, Lan Xuanyu hadn't done anything.

This meant that he hadn't completed his breakthrough yet.

The Treasure Seeking Beast hadn't even condensed the Chaotic Water once. It was as if Lan Xuanyu had fallen asleep inside.

"First Father, will he be fine?" Jin Ni couldn't help but ask.

Da Ming shook his head. “It won’t be that easy for him to break through. He’ll need some time. This is the process of his body’s evolution, so we’ll just have to wait and see. I can sense that it won’t be too long. “

That’s right, it won’t be too long.

Lan Xuanyu could also sense that the two bloodlines in his body were becoming more and more violent, and this was affecting his own emotions.

At this moment, the importance of the Treasure Seeking Beast was on full display. At this moment, it was constantly taking out some spiritual-stabilizing natural treasures to stabilize Lan Xuanyu’s mind.

The bloodline vortex in Lan Xuanyu’s chest and the spiritual vortex in his mind were both constantly expanding. After three days, they had practically filled Lan Xuanyu’s chest and mind.

The feeling of fullness made Lan Xuanyu’s body tremble slightly. He knew that the most critical moment was about to arrive.

A low dragon’s roar erupted uncontrollably, causing ripples to appear on the surface of the lake in the Ice Fire Yin Yang Well.

“Roar!” The impassioned dragon roar woke up the four people on the shore.

In the next instant, a Golden Dragon King line suddenly emerged from the Ice Fire Yin Yang Well. It was clearly formed from energy, but it appeared to be extremely realistic.

Golden Dragon King’s ruby-like eyes were filled with ferocity. Waves of dragon roars erupted and reverberated between heaven and earth. The waves in the Ice Fire Yin Yang Well below them surged violently.

In the next instant, another dragon roar sounded, and a silver dragon drilled out. Around the silver dragon’s body, various elements quickly condensed, forming a colorful light around it that intersected with Golden Dragon King’s radiance.

The dragon’s roar continued, and it became more and more intense. The strong and crazy power continued to press down on the other party, as if it wanted to devour the other party.

Chapter 816 - 816 – The Dragon God’S Projection

816 – The Dragon God’s Projection

Er Ming took a deep breath upon hearing this. “Impressive.”

Elder Shu waved his right hand, and a green light flashed. Three jade boxes appeared in front of him. He stared at the surface of the lake, ready to react at any moment.

The dragons’ roar became louder and louder.

Da Ming slowly flew into the sky, and a layer of azure light rippled from his body, sealing off the entire area around the Ice Fire Yin Yang Well.

He had no choice but to do this. The dragons’ roar had already affected the surrounding soul beasts. Many of the soul beasts that heard the dragon’s roar were already crawling on the ground. If this carried on, they would probably be scared to death.

Finally, when the dragons’ roar reached its loudest, the Golden Dragon King and the Silver Dragon moved at the same time. They charged towards each other.

And at this moment, Lan Xuanyu, who was in the lake, finally underwent a drastic change.

At this moment, he felt like someone who had drunk too much. He was trying his best not to vomit, but he couldn’t take it anymore. He finally vomited.

The bloodline power in his chest suddenly erupted, and the two bloodlines violently collided. The enormous spiritual energy in his Spiritual Sea instantly fell from the top and crashed into the bloodline vortex in his chest.

At this moment, all the rainbow scales on his chest exploded, and turned into a large amount of colorful air current that flowed into his chest.

Lan Xuanyu felt his mind go blank. At this moment, he couldn't feel any pain. The only thing he could do was to fuse all the power he could control into his body at the moment before he exploded.

"Boom!"

The Ice Fire Yin Yang Well's Extreme Chill Ice Spring and Blazing Sun Spring exploded at the same time. They rose dozens of meters into the air, and with the two Dragon Kings as the center, they instantly turned bluish-red.

Right at this moment, a ball of milky white light burst forth in an instant, and a suction force instantly appeared. Among the three jade boxes in Elder Shu's hand, the one in the center instantly flew up in the direction of the Ice Fire Yin Yang Well.

The box had already opened during its flight, and its contents were revealed.

It was a golden-red chrysanthemum with pale golden fur. The moment the box opened, a strange fragrance wafted out. A layer of golden light formed around it.

A hundred thousand year old Singular Velvet Sky Reaching Chrysanthemum!

A burst of golden light erupted, and the petals of the Singular Velvet Sky Connecting Chrysanthemum suddenly parted, revealing the innermost stamens. They were like golden diamonds, and they were emanating intense light.

At the next moment, a white light engulfed it. All the strange aroma disappeared at this moment.

A massive projection suddenly appeared above the Ice Fire Yin Yang Well.

When the silhouette appeared, the expressions of the four people

present, including Da Ming and Er Ming, changed.

It was a hundred-meter-long dragon covered in nine-colored scales. A dazzling golden light radiated from his eyes, and in the instant that they appeared, all of the light within the Ice Fire Yin Yang Well seemed to dim. Even the auras of the Golden and Silver Dragon Kings dimmed.

The Golden Dragon King fell to his knees with a plop. Even the three Divine level experts — Da Ming, Er Ming, and Elder Shu — could not help but tremble, almost dropping to one knee.

“The Dragon God?” Da Ming blurted out.

However, the nine-colored silhouette only lasted for an instant before bursting like a bubble and disappearing. At the same time, it turned into countless raindrops and entered the Ice Fire Yin Yang Well.

If one was close enough, they would be able to see that all of the spring water in the Ice Fire Yin Yang Well had disappeared. It had turned into a huge colorful whirlpool, revolving around Lan Xuanyu, who was sitting cross-legged in the center. Drops of rainbow-colored light continuously drilled into his chest and merged into his body.

Lan Xuanyu frowned, and his entire body was trembling slightly. However, his aura kept on growing stronger. Behind him, the gold and silver streams of air collided and entangled with each other, and streams of air kept gushing out from his body.

The Treasure Seeking Beast’s illusory figure floated not far in front of him, and it grinned as it sensed the colorful light rain falling around it. Its body was also bathed in the light rain, and it became solid once again. Its big eyes were filled with excitement.

It was the Treasure Seeking Beast that had forcibly conjured the figure of the Dragon God. Although it was just an illusion, the moment the aura of the Dragon God appeared, it suppressed the Golden Dragon King and the Silver Dragon King, weakening the aura that exploded after the collision between the two for an

instant.

In just a split second, Lan Xuanyu's body was able to receive the energy produced by the collision of the two forces much more easily.

In the next moment, all of the energy was completely integrated. With the Singular Velvet Sky Connecting Chrysanthemum as the core, the energy gathered in the Ice Fire Yin Yang Well was converted by the Chaos Water. Then, it gushed into Lan Xuanyu's body under the influence of the aura of the Dragon Gods.

The real breakthrough only began at this moment.

The effects of the two years of accumulation and the two years of Ice Fire Golden Body Tempering were completely displayed at this moment. Lan Xuanyu's aura quickly stabilized. The golden and silver scales that had begun to crack on the surface of his skin quickly healed, and he became more angular and three-dimensional. A colorful halo spread out from his chest, and pieces of colorful scales continuously took shape.

It was no longer just one or two pieces. Instead, it quickly spread out. In a short while, it covered an area the size of a palm, and a total of 36 colorful dragon scales covered it.

Lan Xuanyu's aura also began to rise, and the 36 colorful scales became exceptionally bright. All of the rainbow-colored light rain poured into his body from this position. Even the gold and silver light shadows behind Lan Xuanyu's back overlapped temporarily during the continuous collision, forming a colorful shadow.

At this moment, his body was like a greedy giant beast, crazily absorbing all of the energy around him, making the entire Ice Fire Yin Yang Well feel like it was about to be sucked dry.

The Treasure Seeking Beast reached out. At this moment, Lan Xuanyu's breakthrough was already set in stone. However, the extent of his breakthrough depended on how much energy he could replenish from the outside world.

Elder Shu's hand shook, and the other two jade boxes also flew into the air. They flew straight into the fog of light.

Since it had already taken them out, how could the Treasure Seeking Beast let him take them back?

The two jade boxes opened in the air, and a fiery-red herb that looked like a cabbage flew out. It was the hundred-thousand-year Delicate Inferno Apricot. The other was an icy-blue, hundred-thousand-year Star Anise Mysterious Ice Grass.

When the two herbs appeared, the Ice Fire Yin Yang Well shook violently, and more spring water gushed out from the spring.

The Treasure Seeking Beast clasped its hands together, and the two hundred-thousand-year herbs quietly shattered, turning into two balls of light that circled around its body.

The Treasure Seeking Beast took a step forward and arrived above Lan Xuanyu's head. It made a circle with its hands, then pressed downwards. Instantly, a red and blue pillar of light descended from the sky, landing directly on Lan Xuanyu's body.

Lan Xuanyu had just felt his consciousness return, and his body was like a sponge that was absorbing energy from the surroundings. He instantly felt a blazing heat and extreme cold surge into his body, and his entire body trembled violently. In the next moment, his meridians, bones, and organs seemed to have become transparent.

If the Ice Fire Yin Yang Well's Ice Fire Golden Body Tempering came from the outside to the inside, then the hundred-thousand-year Delicate Inferno Apricot and Star Anise Mysterious Ice Grass came from the inside to the outside.

Furthermore, these two herbs came from the mother planet, and they were divine herbs! In addition to the Singular Velvet Sky Connecting Chrysanthemum from before. Lan Xuanyu's body instantly changed again.

At this moment, he only felt that the multicolored light in his bloodline vortex had become unprecedentedly bright. At this

moment, the golden and silver bloodlines in his body seemed to have temporarily lost their emotional fluctuations after the intense collision just now. They had become the purest form of energy, and a part of them was slowly fusing as they came into contact.

Chapter 817 - 817 – Five Soul Rings

817 – Five Soul Rings

The speed of this fusion was related to the amount of life energy absorbed from the outside. Every bit of fusion required a huge amount of life energy.

At this moment, with the Star Anise Mysterious Ice Grass and the Blazing Delicate Apricot, the fusion speed increased significantly. This was why the rainbow colored power of the Dragon God's Core was so bright.

Gradually, Lan Xuanyu discovered to his surprise that a small crystal had appeared in the rainbow core. The crystal wasn't big. It was only the size of a grain of rice when it first appeared. Gradually, it became the size of a soybean as the rainbow energy around it poured in.

This was enough to shock Lan Xuanyu. There was no doubt that energy in solid state was much more condensed than before, which was just a halo. It could be seen how huge the changes brought to him by this breakthrough were.

The rainbow energy in the surroundings revolved around this small crystal and was then absorbed by it to strengthen itself.

On the shore, Da Ming and Er Ming's expressions gradually turned ugly after the initial shock.

This was because they could sense that the energy in the Ice Fire Yin Yang Well was depleting at an alarming rate. This time, it was completely different from how much energy Lan Xuanyu used in the Ice Fire Yin Yang Well every time he cultivated. It was as if he was draining the pond to catch all the fish in it.

Even the Heaven and Earth treasures around the Ice Fire Yin Yang

Well didn't receive any feedback from the chaotic aura. Instead, they showed signs of their life energy being stripped away.

If it were anyone else, Da Ming and Er Ming would have already stopped them. It seemed like they wanted to destroy the Ice Fire Yin Yang Well! How much life energy did this kid need to absorb to break through?

Three hundred-thousand-year-old immortal herbs weren't enough. Did he want to drain the entire Ice Fire Yin Yang Well? This was too cruel.

Elder Shu stood quietly at the side. He was also very pained that the three immortal herbs had been absorbed at once. The School of Life also had shares in these top-grade immortal herbs! But now, he could sense that the Ice Fire Yin Yang Well's aura was weakening. It was all gathering towards the center. What else could he say? Compared to the losses suffered by the Senluo Planet soul beasts, cough cough…

After all, Xuanyu was on his side. He was also the future successor of the School of Life. So be it. He just hoped that this time, he would be able to reap even greater rewards.

At this time, Lan Xuanyu had gradually entered a state of forgetfulness. He could no longer feel anything in the outside world. His mind was focused on observing the changes in the bloodline vortex.

With the appearance of the crystal, both the gold and silver bloodline powers and the rainbow bloodline powers in the surroundings began to revolve again. In his Spiritual Sea, the gold and silver halos gradually returned to normal. The multicolored halo at the core of his Spiritual Sea had clearly become larger, but there was no crystal like the bloodline vortex in his chest.

After the breakthrough, the soul power in his body had clearly increased by a large amount. In Lan Xuanyu's perception, the magnitude of this increase seemed to have more than doubled. It was only a breakthrough of one level, but the change was so great that it was as if heaven and earth had been turned upside down.

At this moment, thick and heavy soul power revolved around his bloodline vortex. Following the undulations of his bloodline vortex, this soul power was swallowed and absorbed before being released again.

The soul power itself and the bloodline vortex seemed to have formed a symbiotic relationship that could be exchanged at any time.

Lan Xuanyu's heart skipped a beat. He secretly thought that the newly formed crystal by his bloodline vortex could have a similar effect to a soul core formed after becoming a seven-ring Soul Sage, right? He was only five-ring!

The function of the soul core was to allow the body to begin to absorb the essence of heaven and earth to produce soul power on its own, allowing the soul power to produce an effect of endless growth. And now it seemed that after the combination of his bloodline power and soul power, a similar effect was born!

If his bloodline crystal core was his soul core, then he would have profited greatly. If he could produce endless soul power and bloodline power, then his cultivation would very likely be comparable to a seven-ring Soul Sage. And he was only five-ring.

He was happy in his heart, but in fact, all of this was normal.

In the universe, there was a law of equivalent exchange. At this time, Lan Xuanyu still didn't really know how much life energy he had absorbed during this breakthrough.

The breakthrough this time was relatively smooth for him. The only danger was the moment when the gold and silver bloodlines collided. But it was only for an instant. With the protection of the Treasure Seeking Beast, it simulated the power of the Dragon God for him at that moment to suppress the eruption of his bloodline. Then, it immediately helped him to start the fusion. Coupled with the protection provided by the Chaos Water, his breakthrough was relatively smooth. This was the result of his accumulation of power.

At this moment, Lan Xuanyu was completely focused on his inner

vision. What he didn't see was that soul rings were slowly rising from below his body.

The fog in the Ice Fire Yin Yang Well dissipated. Da Ming and Er Ming quickly came to the lakeside and looked inside.

Less than a third of the two types of spring water in the Ice Fire Yin Yang Well was left. Furthermore, it looked much more transparent than before. If Da Ming hadn't used his powerful divine sense to envelop this area, the Federation personnel in charge of inspection would have discovered that the life energy had been greatly reduced.

Through the transparent lake water, they saw Lan Xuanyu. They saw Lan Xuanyu's chest emitting a seven-colored halo.

His appearance didn't change much. His entire body was like jade. The golden and silver scales had faded away. Only the palm-sized seven-colored scales on his chest were shining brightly. They were still absorbing the surrounding life energy.

But what made Da Ming and Er Ming's pupils contract was that a total of five soul rings were hovering around Lan Xuanyu's body.

Every single soul ring was bright red. Red. Yes, there were five red soul rings, which represented a hundred thousand year soul ring.

Back when Lan Xuanyu's soul rings were all black, in the world of soul masters, it was still possible to achieve this through some special methods and with Twin Martial Souls. After all, the Spirit Ascension Platform existed in the Spirit Pagoda.

Red, on the other hand, was completely different.

Red represented a hundred thousand year soul ring. This was a red soul ring that the Spirit Pagoda was unable to create.

Red represented the pinnacle of soul rings. How many orange-gold soul rings could there be in the entire human world?

A hundred thousand year soul ring. Although there were only five rings, they were all hundred thousand year soul rings! From this

moment onwards, Lan Xuanyu was different from others.

There was no doubt that the price of this breakthrough was huge. Senluo Planet paid a huge price, as did Shrek Academy and Tang Sect. But in the end, they still achieved this monstrous situation.

In the thirty thousand years of Shrek Academy's history, there had never been a soul master with five rings who all had a hundred thousand year soul ring.

The former Sea God Tang San hadn't done it. The founder of the Spirit Pagoda, Spirit Ice Douluo Huo Yuhao, hadn't done it. Even the Dragon King Douluo Tang Wulin, the existence who led Shrek Academy to prosperity, hadn't done it.

However, such a magical scene had happened to Lan Xuanyu.

Originally, when they felt the decline of the Ice Fire Yin Yang Well, Da Ming and Er Ming were so heartbroken that they couldn't breathe. But at this moment, their eyes became incomparably bright. Their breathing quickened as well.

Thinking back to the appearance of the projection of the Dragon God, they knew that their guess was correct. In Lan Xuanyu's body, there really was the pure bloodline of the Dragon God.

What did the Dragon God mean? To human soul masters, they might only feel powerful. But to soul beasts like them, it meant the revival of their god !

Real Title: Five One Hundred Thousand Year Soul Rings

Chapter 818 - 818 – For The Dragon God !

818 – For The Dragon God !

In the past, the Dragon God was the strongest God King of the Divine Realm. He was the ultimate ruler of the Divine Realm. It was because of the fall of the Dragon God that soul beasts couldn't become Gods. If the Dragon God really revived and became a God King again, then it wouldn't be just one or two soul beasts that would benefit. Instead, all soul beasts would have a chance to enter the Divine Realm.

The door that had blocked this path for so many years could finally be opened to the entire soul beast world. What could be more exciting than this?

Di Tian, Da Ming, and Er Ming were the same.

At this moment, the two god ranked Beast Kings were so excited that their breathing quickened. They didn't feel any dissatisfaction or pain about the decline of the Ice Fire Yin Yang Well.

What was the price to pay for the birth of the Dragon God? Even if the price was the life energy of the entire Sen Luo Planet, they felt that it was worth it!

Er Ming suddenly turned around and grabbed Elder Shu's collar, pulling him in front of him. A strong and fierce aura instantly erupted.

Although they were both Gods, Elder Shu wasn't particularly good at fighting. At this moment, he couldn't help but feel his heart tremble.

"You can't say it, okay? You can't say it. You can't say anything about what you saw just now. " Er Ming's voice was urgent and trembling.

To the soul beast world, the birth of the Dragon God was too important. Right now, Lan Xuanyu was still an immeasurable distance away from becoming the true Dragon God. He needed time, a very long time to grow and become a Dragon God.

And during this process, he could not let the humans know about it. This was because they weren't sure if humans would allow the birth of the Dragon God.

Right now, there was no Divine Realm in this world, and there were no human God Kings. In other words, once the Dragon God was truly born, it was very likely that they would rebuild the Divine Realm. A Divine Realm with Divine Beasts as the foundation!

Although the soul beasts had reached an agreement with the Douluo Federation, the Douluo Federation was still the leader. No matter what, they would reject the existence of a Divine Realm with a Divine Beast as its leader ! n*Ove*l**Us*B*.C*OM***

"Calm down, Senior Er Ming," Elder Shu hurriedly patted Er Ming's hand with a strange expression on his face.

Da Ming raised his hand and slapped the back of Er Ming's head. Then, the light in his eyes returned to normal. "What are you thinking about?"

Er Ming was stunned. He let go of Elder Shu and turned around to look at Da Ming in confusion. He did not understand why his big brother would slap him at this time.

Da Ming said indifferently, "Even if Xuanyu succeeds in the future, don't forget that he has the blood of a human flowing in his veins. He's not a soul beast! He merely possessed the bloodline of the Dragon God. Therefore, even if the Dragon God was revived it wouldn't be the same one of the past. "

Er Ming was stunned. "Is that so? Then … "

Da Ming waved his hand and said, "But if he succeeds, it's still a good thing for us. At the very least, the rule that soul beasts cannot become Gods is very likely to be broken. As long as we can achieve

this, we can be considered to have rewritten history. “

After saying this, he turned to Elder Shu and said in a low voice, “Xuanyu’s situation is a little too shocking. I think it has never happened in the history of the human race. Therefore, we do need to hide some things. But as for the higher-ups of the academy, let them know what they need to know. After all, his future growth is not something that any of us can help him achieve. “

After saying this, Da Ming’s facial muscles twitched. Elder Shu immediately understood what he meant.

Wasn’t that right? After breaking through to five-ring, look at what Lan Xuanyu had done!

Although the Ice Fire Yin Yang Well here was man-made, it was still formed by gathering the life essence of the entire planet. Now, it was almost dried up by Lan Xuanyu. And this was under the condition that he had absorbed three hundred-thousand-year-old immortal herbs. If not for those three immortal herbs, the Ice Fire Yin Yang Well might have been cut off from the roots.

He was only five-ring. What about when he broke through to six-ring, seven-ring, eight-ring, and nine-ring in the future? How much life energy would he have to absorb to achieve that?

Therefore, in order to let Lan Xuanyu truly grow and become a powerhouse of his generation, and even be able to restore the position of the Dragon God. Then, the resources he would need would definitely be an astronomical figure. Only the Shrek Academy, the Tang Sect, and the two-lineage soul beasts might be able to do it.

Er Ming said to Elder Shu embarrassedly, “I’m sorry, Little Tree. I was a little excited just now.”

Elder Shu smiled bitterly. “It’s fine, it’s fine. Who would have thought that this child would change so much? This time, it can be considered a transformation, right? “

Da Ming nodded. “After this breakthrough, he can be considered to

have the true bloodline of the Dragon God. In the outside world, you must protect him well. Of course, with the bloodline of the Dragon God, he won't die so easily. He definitely has a lot of luck on him. Now, we can only hope that he can grow quickly and safely. In our lifetime, we can really see the scene of the Divine Beasts rising again. "

The five red soul rings were simply too eye-catching. The three god-ranked experts felt a little dazzled when they saw them.

However, in the next moment, the five red soul rings suddenly flashed and underwent a sudden change. The red color gradually deepened, and then all of them turned black.

"You guys saw wrongly. The one just now was dyed red by the Blazing Sunspring." A voice with a strange smile sounded. The Treasure Seeking Beast sat on Lan Xuanyu's shoulder and looked at them with a smile.

The three god-ranked experts' eyes lit up. Was this a cover?

Of course, the Treasure Seeking Beast's words were just for show. However, with it around, this soul ring cover was indeed very interesting!

"Good." Da Ming nodded.

The Treasure Seeking Beast's situation was a little miserable. Its body was clearly much more illusory. It waved at the three god-ranked experts, and in the next moment, it drilled into Lan Xuanyu's forehead and disappeared.

This time, it had consumed a lot of energy and needed to recuperate properly. However, Lan Xuanyu's Dragon Core had been successfully condensed. To it, the blood essence of the Dragon God that it would replenish in the future had become endless. It could also absorb it without worrying about affecting Lan Xuanyu's cultivation. Overall, it was a good thing.

Gradually, Lan Xuanyu stopped absorbing the life energy of the outside world and entered a stable state of meditation.

Da Ming and Er Ming heaved a sigh of relief. As he stopped absorbing, the spring water in the Ice Fire Yin Yang Well started to rise. Although it was very slow, there was still a chance for recovery.

In fact, they really had to thank the Shrek Academy. Without the Star Anise Mysterious Ice Grass and the Blazing Delicate Apricot, Lan Xuanyu's Dragon Core wouldn't have been able to form. Furthermore, it would really have devoured everything here.

Lan Xuanyu had been silently feeling the changes in his body, and he gradually had a clear sense of that almost metamorphosis.

The gold and silver streams of blood essence eventually returned to their original state. They no longer merged and absorbed each other. However, the Dragon Core in the center of his bloodline vortex had already stabilized at the size of a longan. It steadily absorbed all the energy around it to replenish itself. Then, it exhaled its own aura, allowing Lan Xuanyu's Dragon God blood essence to form a cycle.

As it breathed in and out, it also absorbed and changed the blood essences of the Golden Dragon King and the Silver Dragon King. This process wasn't considered fast. The blood essences of the two Dragon Kings still had their own persistence and mania. However, at least it wasn't like before where it couldn't be converted.

If this continued, he would be able to accumulate more and more Dragon God's blood essence through his own cultivation. This was definitely the best situation. This would even allow his soul power cultivation speed to increase. He wouldn't need to let his bloodline vortex absorb all his soul power first. Furthermore, the absorbed energy could only be converted into the Gold and Silver Dragon King's blood essences.

Chapter 819 - 819 – Breakthrough Completed

819 – Breakthrough Completed

The drastic increase in his soul power came as a surprise to Lan Xuanyu, and everything within his body was shimmering with golden light. It was far more stable than it had been in the past.

What he had to do now was stabilize his cultivation base. It was a pity that the same core hadn't been born in the spiritual vortex of his Spiritual Sea. Otherwise, perhaps his spiritual power would've been able to progress as well. He had already reached the Spirit Abyss realm for quite some time, but the more powerful his spiritual power became, the slower his rate of improvement became, and there was still a massive gap between him and the Spirit Domain realm.

Lan Xuanyu could sense that if a dragon core could be born in his spiritual vortex in the future, then there was a very good chance that he would be able to break through to the Spirit Domain realm. He wondered if he would be able to do that when he would have his sixth soul ring.

Da Ming and Er Ming stayed behind to protect Lan Xuanyu. The main reason for that was because the changes here were far too drastic, resulting in massive changes in the life force energy, so they had to be isolated from the outside world by their Divine Sense. At the very least, they wouldn't be able to leave until the Ice Fire Yin Yang Well was mostly recovered.

After being immersed in the state of stabilizing his realm for an unknown period of time, when Lan Xuanyu woke up on his own, he felt that his body was surrounded by coolness and warmth, intertwining with each other.

He reflexively opened his eyes, and he immediately realized that he was still within the Ice Fire Yin Yang Well. However, what was

strange was that the same spring water was no longer scorching or icy cold. It was only pleasantly cool and warm.

“Come up here if you’re awake, you little brat,” Er Ming’s voice sounded.

Lan Xuanyu reflexively waved his arms through the air, and his body immediately rose up into the air. His bloodline vortex began to circulate on its own, and his soul power surged out of his pores to propel his body upward.

His body broke through the surface of the water, and he didn’t stop there. Instead, he rose up into the air.

Lan Xuanyu immediately felt as if he had appeared in a sea of elements, and all of the elements around him seemed to have become a part of his body. The azure wind elements were supporting his body so that he wouldn’t fall, and all of the elements were exuding an aura of intimacy toward him, as if he had become their master.

This feeling was wonderful and comfortable. As long as he willed it, the surrounding elements would naturally help him complete everything according to his thoughts.

The wind element carried his body, bringing him to the shore and putting him down. In Lan Xuanyu’s eyes, a colorful halo flickered. With just a thought, a colorful halo appeared around his body. It was completely formed by the condensation of dense elemental power.

This kind of feeling was simply too good.

If it was said that he only had elemental affinity before, then the current him was like the ruler of the elements. Water, Fire, Earth, and Wind, the four basic elements, were like his soldiers, and he could command them as he wished. No, not only these four elements, but there was also a white, warm element among them.

Although Lan Xuanyu didn’t know what his fifth soul ring was, he could clearly feel it at this moment.

Light element. Yes, that was the fluctuation of the light element. The fifth soul skill of his silver-patterned Blue Silver Grass should be the control of the light element.

Compared to the four basic elements, there was no doubt that the light element was a more powerful existence.

Da Ming, Er Ming, and Elder Shu were all present. Their gazes were also focused on Lan Xuanyu, who was descending from the sky. Seeing his surprised expression, the three god-ranked powerhouses couldn't help but praise him in their hearts. He was blessed by the heavens.

They could naturally feel the affinity of the various elements in the air towards Lan Xuanyu. Furthermore, Lan Xuanyu's body was also emitting a dense aura of life, to the extent that the immortal herbs around him were growing at an accelerated rate.

Elder Shu was the happiest. As expected of the physique with the strongest life affinity! The current Lan Xuanyu was like a part of life energy.

"Thank you, Senior Da Ming and Er Ming. Thank you, Elder Shu. I succeeded." Lan Xuanyu had already regained his senses and bowed respectfully to the three of them.

Elder Shu waved his hand. Da Ming frowned slightly, but Er Ming said without any trace of politeness, "You stinking brat, you've ruined us quite a bit this time! Let me give you a suggestion. You can't just come here to ruin us. Go back and make a trip to the Spirit Ascension Platform, the Spirit Pagoda's Spirit Ascension Platform. Go directly to their headquarters on the Mother Planet and ask the Shrek Academy to get you an admission ticket to the advanced Spirit Ascension Platform. Go inside and absorb everything you can. Those are also good things. They're simulated soul beast bloodline auras and are pure energy. Go there and see how much you can absorb. "

Elder Shu almost laughed out loud. This Er Ming was too unkind. With Lan Xuanyu's life affinity and his powerful bloodline power, who knew what would happen if he went to the Spirit Ascension

Platform? However, this seemed to be something that could be considered!

“Uh … I’ll see how the academy will arrange this when I go back. I’ve already completed my breakthrough, so I’ll take my leave. ” Lan Xuanyu still didn’t know that his soul rings had appeared on their own. He couldn’t wait to find a place where no one was around to release his soul rings and see if they had really become hundred thousand year red soul rings. In front of Da Ming and Er Ming, he didn’t want to do it.

Da Ming said, “Don’t come to us in the future. If you do it again, our Ice Fire Yin Yang Well will be completely destroyed. I’m afraid you’ll have to find another place for your next breakthrough. If you need to devour more life energy, you’ll have to think carefully about where to go. “

“Oh. Okay. ” Lan Xuanyu was a little disappointed. However, when he flew out, he could feel that the Ice Fire Yin Yang Well’s energy undulations were much weaker. It was probably because of him.

Da Ming turned to Er Ming and said, “You stay here and guard. I’ll take them to see that thing.”

“Okay.” Er Ming nodded and released his divine sense to guard this place in Da Ming’s place. He didn’t want the weakening of the life energy here to appear outside. According to the current situation, it would probably take a year or so for the life energy here to recover to a state where it wouldn’t arouse suspicion. At least one of them had to stay here to guard this place.

Lan Xuanyu asked curiously, “Senior Da Ming, where are we going?”

Da Ming looked at him meaningfully and said, “You just have to follow me. Let’s go. “

A green light flashed and swept up Lan Xuanyu and Elder Shu into the air.

Lan Xuanyu’s perception was clearly much stronger than before.

When he was swept up by the green light released by Da Ming, he immediately felt that he was isolated from the elemental power of the outside world. It was as if he had entered a sealed space. The silver elements around him that he couldn't control should be the power of space.

At the level of a God-ranked expert, they seemed to have a certain level of control over the power of space.

Teacher Nana was also like this.

Lan Xuanyu already knew that Nana was a God-ranked expert. If she wasn't a God-ranked expert, how could she teleport to his side from such a long distance?

They flew in the air, but they couldn't see anything around them. The green light isolated everything.

Elder Shu was used to this, and said to Lan Xuanyu, "Xuanyu, congratulations! This breakthrough is like a metamorphosis for you, and it's very significant. Especially those five hundred thousand year soul rings of yours, they're really too shocking. "

Lan Xuanyu said in surprise, "You saw them?"

Chapter 820 - 820 – Mysterious Cave

820 – Mysterious Cave

“Okay, okay.” After the surprise, Lan Xuanyu’s heart was instantly filled with joy. Success, he actually succeeded.

Although based on previous experiences, it should have been this way. However, he was well aware of the difference between ten thousand years and one hundred thousand years! Breaking through to the level of one hundred thousand years meant something significant, and he understood it very well. From this moment on, he was no longer the weakest cultivator in the team. Moreover, he now possessed a Dragon Core that rivaled the Soul Cores. His cultivation itself should not be inferior to a Seven-Ring Soul Sage, especially with the characteristics of his Twin Martial Souls and Dragon God Bloodline, as well as the Dragon God Transformation. Facing Tang Yuge one-on-one, he should also have the power to fight. It was hard to say who would win or lose. Being the leader of the team, not having enough strength had always been his regret. After this breakthrough, everything should change.

He was eager to try out the extent of his cultivation improvement and the state of his combat abilities. novelUB.com

Elder Shu smiled faintly and said, “Senior Er Ming’s suggestion just now was indeed good. The Spirit Pagoda’s Ascension Platform is a good place to hone your skills. In the Advanced Ascension Platforms, you can encounter simulated soul beasts even at the level of a hundred thousand years. Fighting in there would be of great help. After we return, I will report to the academy and devise a solution for you. If we can weaken Spirit Pagoda’s Ascension Platform, I believe the Sea God Pavilion wouldn’t oppose the idea at all. However, we need to figure out how to cover up for you and avoid trouble from the Spirit Pagoda. Your true abilities should not be exposed yet.”

“Okay, I understand. I will follow your arrangements,” Lan Xuanyu quickly replied.

Just then, the green light converged, and in the next moment, they felt the ground beneath their feet.

The surroundings were still filled with greenery, just like in Sen Luo Planet. Lan Xuanyu wasn’t familiar with this place, so he naturally didn’t know where they had arrived. But judging from the flight time earlier, it should be quite far from the Ice Fire Yin Yang Well.

In front of them stood a green mountain range, undulating and stretching endlessly. Every peak was covered with all kinds of green vegetation, exuding a moist and vibrant aura of life.

Lan Xuanyu remained silent. Although he didn’t know where this place was, since Da Ming had brought them here, there must be something he wanted them to see.

Elder Shu, however, understood it well and approached Da Ming’s side.

With a flick of Da Ming’s wrist, something appeared in his hand. Lan Xuanyu was astonished to find that it seemed to be a metallic card.

Da Ming pressed on it, and instantly, a beam of light projected out from the card and landed ahead. Then he was shocked to see that with a creaking sound, the ground in front suddenly moved horizontally, revealing a huge entrance to an underground chamber. What’s more, the entrance appeared to be mostly made of metal.

Metal? This was the Sen Luo Planet, a world filled with soul beasts and the aura of life. A metallic underground chamber and it even looked quite high-tech. It truly subverted his understanding.

Da Ming walked inside first, followed closely by Elder Shu. Lan Xuanyu didn’t dare to lag behind and quickly followed suit, his heart filled with curiosity.

As they entered, the entrance behind them slowly closed.

The light underground was dim, but there were emerging lights around, and after a moment of adaptation, they could see clearly.

What exactly was this place? Lan Xuanyu was extremely curious. Most of the surroundings were rocks, indicating that they had been excavated, but many areas were reinforced with metal. Judging by the metallic feel, the metals used were of excellent quality, and some places were even alloys composed of rare metals mixed with common ones.

The deeper they went, the larger the underground chamber became. Soon, Lan Xuanyu saw a vast space.

Within this enormous space, it was approximately 300 meters high and several kilometers long and wide, incredibly immense. It was many times larger than the largest stadium Lan Xuanyu had ever seen.

From the walls around them, it was clear that this place had been excavated. In other words, the mountain he had seen earlier should be hollow inside.

He could also sense that there were specialized soul tools releasing energy, providing complete protection within. Although he didn't know the specifics of these energies, there was no doubt that they had the ability to isolate external exploration.

Was this a secret place of the soul beasts on the Sen Luo Planet?

The cavern was very spacious, with nothing visible. But in the next moment, everything changed.

Da Ming waved the card in his hand, and a glimmer of light flickered. Then he took a step forward, and his body disappeared as if it were water ripples.

While Lan Xuanyu was still amazed, Elder Shu pulled him and followed suit.

A strange energy fluctuation swept over them, and in the next moment, a cacophony of sounds emerged, accompanied by a complete upheaval of the scenery before their eyes.

The cavern was still the same massive underground chamber, but within it, Lan Xuanyu could clearly see countless busy figures. They were soul beasts of all kinds, all bustling about. What shocked Lan Xuanyu the most was the massive figure at the center of it all.

It was a colossal body measuring over three hundred meters in length, and upon closer inspection, it turned out to be a gigantic soul beast. The soul beast resembled a large bird, but its entire body was covered in scales without any feathers. The scales were silver and emitted a brilliant radiance. The massive body lay prostrate there, unmistakably devoid of any signs of life.

A corpse? The corpse of a powerful soul beast?

The soul beasts bustling around it seemed to be coming and going around its body. When their bodies approached the gigantic soul beast, a silver light would shimmer, and they would autonomously burrow into it, then disappear.

What were they doing? A big question mark appeared in Lan Xuanyu's mind.

Da Ming turned to Elder Shu by his side and said, "The basic work has been completed. The next step is the experimental process. Once the experiment is successful, we will continue with the manufacturing. Please explain it to Xuanyu."

"Okay." Elder Shu nodded, and Lan Xuanyu couldn't wait to look at him.

Elder Shu spoke solemnly, "This is a project, a collaborative effort between our academy, the Tang Sect, and the Sen Luo lineage of soul beasts. This project is called the Biological Warship. The colossal beast you see before you is an extinct soul beast that existed in ancient times called the Silver Armored Great Peng. It had a cultivation base of one hundred thousand years. It used to exist on the same level as the Phoenix. After its death, its body did not completely decompose, leaving behind this massive corpse."

"With the development of our soul technology, soul beasts have become increasingly weaker in the face of humanity. They don't

have soul tools, warships, or spacecraft. Even divine-level powerhouses cannot travel across space without the support of our Battle Armor. So, Senior Da Ming proposed to the academy whether there was a way to grant them the ability to fly in space. After years of research, the Biological Warship project was born."

Lan Xuanyu's lips moved, wanting to say something, but he held back.

"Are you wondering why the Biological Warship project seems to only benefit us soul beasts, and why the Tang Sect and Shrek Academy are helping us?" Da Ming asked Lan Xuanyu.

Lan Xuanyu felt somewhat embarrassed but nodded nonetheless. After all, in the past, soul beasts and humans were known to be in opposition. Setting aside how the Biological Warship project was executed and completed, if soul beasts became too powerful, wouldn't that pose a threat to humanity once again?

Da Ming spoke with a deep voice, "Firstly, it is true that we are collaborating with humans. However, our true trust lies not in the Douluo Federation but in Shrek Academy and the Tang Sect. For us soul beasts, we need the ability to protect ourselves. Even though we live on Sen Luo Planet and it seems like we have our own place, in reality, everything is still under the control of the Douluo Federation. We don't truly have our own freedom. But once the Biological Warship experiment is successful, we will be able to explore the outside world, to seek our own living space without being controlled by humans."

Chapter 821 - 821 – The Origin Of The Biological Warship

821 – The Origin of The Biological Warship

“Secondly, the Douluo Federation has always been wary of Shrek and the Tang Sect. They have been actively cultivating various forces, especially in the construction of their space fleet. As you should know, graduates from the Inner Court of Shrek Academy are not allowed to join the military. Even graduates from the Outer Court can hardly become commanders of warships. This is the Federation’s suppression of you. As for the Tang Sect, they even face technology and resource blockades. These are all power struggles at the top. It is all in order to eventually bring Shrek and the Tang Sect, this independent kingdom, under complete control of the Federation, while also controlling the most important and precious resource, the Eternal Tree.”

“Therefore, the Tang Sect and Shrek Academy need to have the power to protect themselves. While remaining low-key, they have been continuously striving to cultivate their own strength. However, the space available on our home planet is too limited. This place can be considered another stronghold for the Tang Sect and Shrek Academy. And we are their most reliable partners. So, the Biological Warship belongs to us, but it also belongs to the Tang Sect and Shrek Academy. We provide resources, while the Tang Sect and Shrek Academy provide technology. Here, there are thousands of Tang Sect technicians and engineers.”

Lan Xuanyu frowned and said, “Are the academy and the Tang Sect already facing such difficulties within the Federation?”

Elder Shu replied, “It’s not exactly difficult. Although the Federation has been trying to suppress us, they also rely on our power. After all, god-rank powerhouses are irreplaceable strategic assets. And the Tang Sect and Shrek Academy have the most god-rank powerhouses. As long as we maintain a numerical advantage

in this aspect, the Federation can only suppress us in secret and dare not directly confront us."

"But it's always important to be prepared and have true strength. We never wanted to oppose the Federation, but we also need the power to protect ourselves. We can't let a scene like Shrek Academy being destroyed ten thousand years ago happen again. So, over the years, we have been accumulating our own strength."

"Furthermore, the Federation also faces many external challenges and powerful threats. Their external wars are not smooth sailing. When the Federation is in need, our power may very well be their last line of defense."

Lan Xuanyu nodded and said, "I understand. Isn't it too early for me to know about such an important secret ?"

Elder Shu smiled and said, "It was a bit early before your breakthrough, but now that you have successfully advanced, it's certain that you will enter the Inner Court in the future. Moreover, you are also the inheritor of the School Of Life's helm, so you need to know these things. Because the Biological Warship itself is also a part of our School Of Life. The conversion of life energy into power is something we excel at."

Lan Xuanyu asked, "What exactly is the Biological Warship? Is it the body of a powerful soul beast that has passed away?"

Elder Shu nodded and said, "The basic principle is like this. Different soul beasts have different abilities. The body of the Silver Armored Great Peng wasn't originally this massive. We used the biotechnology of our School Of Life to amplify its life energy. Through long-term absorption and conversion of life energy, it became what it is now, the outer shell of the Biological Warship. All the abilities of the Biological Warship, including its flight and combat capabilities, are simulations of the amplified abilities of this enlarged soul beast during its lifetime. Therefore, when selecting the hull for the Biological Warship, we need to be very careful in our discernment."

Upon hearing Elder Shu's words, Lan Xuanyu couldn't help but be

astonished. He finally understood that the biotechnological level of the School Of Life had reached such an extent. They could even make a corpse continue to grow. It was truly terrifying.

Da Ming spoke in a deep voice, “The biggest advantage of the Biological Warship itself lies in the fact that once it is created, it is not a cold and lifeless machine but a created living being. As the pilot, you become its brain. As long as you are strong enough and possess at least the spiritual power of the Spirit Domain, then you can pilot the Biological Warship.”

Elder Shu’s eyes sparkled as he said, “The Biological Warship will undoubtedly become one of the most advanced warships in the entire Federation. Because it possesses powerful mimicry abilities, we can even retain the cost-saving features of soul beasts. By utilizing technological means and the research direction of our School Of Life, we can enhance the original physical abilities of the soul beasts. Therefore, each Biological Warship will be unique and possess its own formidable capabilities.”

Lan Xuanyu listened in astonishment. He himself was a student of the Star Wars Command Department and the captain of the Star Wars Experimental Class. But the concept of the Biological Warship was still incredibly novel to him.

Using the body of a soul beast as a warship, what would it be like in combat?

Er Ming said, “The greatest advantage of the Biological Warship is that it is not only highly agile but also, like a soul master in a warship, that it possesses its own special abilities. Ordinary warships only have soul tools for attacking. Can you imagine what it would be like for a warship to have soul skills? With the appearance of the Biological Warship, interstellar warfare will enter a new era. The powerful Biological Warship can carry out tasks that ordinary warships cannot accomplish. Moreover, the Biological Warship is mainly based on biotechnology, making it immune to the majority of detection radars.”

“Most detection radars rely on thermal and metal detection. The surface of our Biological Warships contains no metal, and the

internal metallic components are extremely limited, completely hidden by their thick flesh and blood. And the self-regulation of their body temperature allows them to have any desired temperature."

What impressed Lan Xuanyu the most was the phrase "soul master in a warship." It was really fascinating to think of a warship that could unleash soul skills.

Elder Shu smiled and said, "With the development of technology, when technology gradually reaches its peak, more breakthroughs need to be accomplished through ingenious ideas. It was the Tang Sect who ultimately proposed this concept. After our long-term research and exploration with the soul beasts of Senluo Planet, we are finally achieving something. The Silver Armored Great Peng warship before you will be the unprecedented first warship of its kind. As you know, with the advancement of soul guide technology, the role of soul masters is continuously being weakened. Even god-rank experts can only bypass warships above the warship class. Although internally, soul masters argue that powerful soul masters can carry out tasks that warships cannot. But it is clear to everyone that with the strong presence of space warships, soul masters are no longer as important as before. Even an ordinary person can serve as a warship commander, and soul masters can only be an added bonus."

"However, it's different for our Biological Warships. Our Biological Warships themselves are extremely powerful and highly personalized. It is almost impossible to create two identical Biological Warships. To become the commander of a Biological Warship, one must possess extraordinary spiritual power and soul power; otherwise, one cannot become the brain of the Biological Warship. Therefore, the commander of a Biological Warship must have a cultivation level above the Title Douluo and their spiritual power must reach the Spirit Domain realm. This admission threshold will exclude the vast majority of people. And among the top-level experts in the realm of soul masters, who have more than our Shrek Academy? Therefore, the future Biological Warships will be exclusive to our academy, Tang Sec, and the soul beasts of Senluo Planet. It is impossible for others to replicate or manufacture

them.”

At this point, Lan Xuanyu was filled with shock and couldn’t help but ask, “Can I see what it’s like when the Biological Warship is in combat?”
